WERNER
ELECTRIC SUPPLY

Products & Services

Southeast Wisconsin Industrial Automation

Welcome to Werner Electric Supply!

At Werner Electric, we have grown to serve the needs of our loyal customers and valued partners since our modest beginnings in 1948. We provide diverse, high quality products and services from our locations throughout Wisconsin and Michigan's Upper Peninsula.

Today, we offer over $35 million in inventory made up of 28,000 SKUs in our state-of-the-art, 250,000-square-foot warehouse and corporate offices. Our 400+ employees throughout Wisconsin and Michigan's Upper Peninsula, collaborate with our vendor partners to deliver cost-saving solutions, efficiency-promoting services and distribution of the industry's finest products. As a key partner to our customers and vendors in all areas of business, Werner Electric strives to provide service that goes above and beyond expectations. Our 50+ engineers and product specialists provide services such as technical support, training, inventory management, engraving, custom assemblies, modified enclosures, lighting design, and much more!

As President of Werner Electric Supply, I want to thank you for allowing Werner Electric Supply to serve your needs. We look forward to a successful long-term, and mutually beneficial relationship with you, our customers, for years to come!

Craig Wiedemeier
President

Contents

OUR MISSION

UNWAVERING COMMITMENT
TO OUR CUSTOMERS, FAMILIES, COMMUNITIES
AND EACH OTHER

Our mission is more than words, it's what each Werner Electric Supply employee is encouraged to focus on as they begin each day. It is the foundation for why we exist as an organization.

OUR VISION

RELENTLESS PURSUIT
OF EXCEPTIONAL
CUSTOMER EXPERIENCES

Our vision reminds us of the importance of creating long term, desired experiences with each customer interaction. Our vision defines the direction we are committed to, a direction that is aspirational, inspirational and unifying.

Automation Solutions

Automation Training

Training

Werner Electric Supply is proud to offer an array of valuable training programs to help you stay current on new technology.

Topics Include:

- Standard Controls
- Pneumatics
- Industrial Grounding
- Code Updates
- Arc Flash Safety Training
- Machine Safety
- Standards Courses (OSHA, NFPA, NEC)
- New Product Training
- Trends (e.g. Energy Efficient Practices)

Robotics

A Robot for Every Application

Fully optimize the skills of your employees by allocating repetitive tasks to robotics

- **Total industrial automation solution**
- **Broad product portfolio**
- **Variety of Applications**

Network Solutions

Network Services

Network Audit

After gathering information on your network environment (device configurations, logs and hardware), we will analyze your network, provide insights into existing security vulnerabilities, performance deficiencies, uptime or availability problems and identify areas where controls can be improved.

Network Design Services

Certified Cisco networking experts use agile network design to custom tailor and scale your network to the size of your organization, with seamless integration and built in security assurance to minimize risk.

On-Site Network Services

Utilizing the most up-to-date network diagnostic tools, Werner Certified Network Technicians visualize critical network paths and analyze network traffic patterns to accelerate the identification and root cause of network issues.

Remote Monitoring & Management

Managed services help monitor your network and server equipment and assist in identifying issues before they arise, allowing for timely corrections to prevent serious downtime. Also become empowered with a secure, unified toolset and a simplified, intuitive console.

Custom Cabinet Design & Build

In-house custom cabinet designs and builds meet your environmental requirements, switch selection, port density, cable management and backup power needs, and help reduce overall cost and time to deploy.

WiFi Services

WiFi planning and survey services allow our wireless engineers to provide a predictive wireless design that is critical for deploying a reliable, expandable and secure wireless network.

Wireless System Support & Design

Take advantage of a complete suite of technical services for data, whether your application employs a cellular, licensed or unlicensed wireless infrastructure.

Products

Process Solutions

Process Control Services

Onsite Instrumentation Startup

During an onsite visit, Werner Electric's Process Control experts oversee and assist with field instrumentation startup.

Process Training

Choose from a variety of International Society of Automation (ISA) technical topics and learn from experts in automation, process control, installation, commissioning and safety.

MiA – Process Control Trainer

Schedule a session with MiA, Werner Electric's Process Control Trainer, for customizable hands-on process control training. MiA can simulate a wide variety of processes found in plants and provides real-time training without disruption to production or causing machine damage.

Control Station

Learn best practices and the most effective way for diagnosing process dynamics and tuning PID controllers, whether you tune PID control loops manually or with the aid of software.

## mia

Multifunction instrument Asset

MiA is an 82"x26"x80" mobile unit that can replicate many processes found in manufacturing plants, providing customers real-time training without disrupting production or causing damage to customer machines.

Werner Electric Supply will use MiA for a variety of training opportunities, including:

- Deep Dive Sessions
- Process Training
- Alarm Management
- Single Day Classes

Distribution Equipment Services

Panel Assemblies

Werner Electric Supply stocks panelboards in-house, which are ready to pick up or ship out the same day. Our inventory includes 100, 200 and 400 amp panelboards to satisfy your customer's needs.

We can also custom assemble BR and CH line load centers for your installation convenience.

Contact your Werner Electric switchgear quotations specialist or your local customer service representative to learn more.

Enclosures

Enclosure Services

Enclosure Modification Machine (EMM)

Receive pre-modified enclosures and back panels with precise, clean holes and cut outs, using any material in any shape and size. Order easily by supplying existing design files.

Enclosure Application Assistance

Our experts can help you choose and design the best enclosure for your application.

IP69/69K Rated Products

Protect your electrical equipment from high pressure, high temperature washdowns with IP69/IP69K products, tested and proven for food and beverage applications.

Thermal Audits on Control Panel Enclosures

Free thermal audits provide cooling solutions which help you avoid equipment failures, costly downtime and arc flash hazards.

Pushbutton Assemblies

Save time with pre-modified enclosures with customized pushbutton assemblies.

GraceSense Predictive Maintenance

A full solution of asset health monitoring with IIoT smart devices that provides monitoring and alerting capabilities for critical machines.

GET THE SOLUTION YOU NEED WHEN YOUR BUSINESS DEMANDS IT

Inventory Management

Inventory Management Services

Material management solutions designed to help you manage your inventory in the most efficient and cost-saving ways since 1986.

VMI Pro

We take care of it all.
- We organize your inventory
- We order your inventory
- We deliver and put away your inventory
- We monitor your inventory
- We generate usage reports
- We make suggestions based on your usage history

VMI Assisted

You maintain control. We assist.
- You maintain control of which products are ordered and how often
- Werner Electric assists with organizing and labeling your products
- All orders are placed easily and electronically
- Reduce the amount of time your staff takes in the ordering process
- Place orders as often as you need
- Orders delivered next day in most cases
- Usage reports available at the touch of a button

Vending Solutions

Werner Electric provides innovative vending solutions to help you overcome your inventory challenges. Vending machines provide secure, convenient access to high-value, fast-moving, and critical supplies. We will set you up with the right system for your facility. And you can rest assured that we will provide the service and expertise you have come to expect from Werner Electric.

- Improve Accountability
- Improve Access
- Reduce Loss
- Cut Overuse
- Save Money!

Successful VMI Programs For:

- Panel Shops
- OEM
- MRO
- Line Side Manufacturing
- Special Projects

Engraving

Engraving Services

Complete In-House Engraving Center

- Staffed by experienced engraving specialists
- Quick turnaround – average lead time of 4 business days
- Wide variety of colors and materials – plastic, stainless steel, aluminum, brass
- Accurate reproduction of machine diagrams and schematics
- Custom plates, tags, labels, signage and legends made to your specifications

The engraved items you need… when you need them!

Werner Electric maintains a complete engraving workshop in-house and specialists to ensure you get the engraved products you need, when you need them. Our computerized engraving machines can engrave on very small items to very large items (up to 2' x 2'). We also have a thermal transfer printer that can print items, such as bar code labels, up to four inches wide.
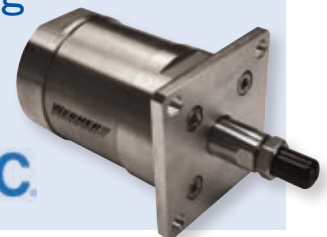

ATV Plates

- **Fast Turnaround: 3-4 Days**
- **Durable Plastic**
- **Convenient**
- **Meets all WI DNR Requirements**

Clean Energy Services

Design Assistance

Recommendation of the most efficient PV array system, with a combination of PV modules, inverters and string sizes for the array envisioned.

Component Selection

Smart component choices maximize production levels and minimize costs, along with space and aesthetic considerations.

Custom Assemblies & Services

Werner Electric can pre-fabricate, customize, kit and stage the products you need for any clean energy project.

Project Coordination

Complete coordination of project details including P.O. confirmation, order entry with manufacturers, order tracking, expediting, delivery scheduling, change orders and billing reconciliation.

Manufacturer Trainings

Werner Electric offers training opportunities to keep you current with the latest energy efficient technologies.

Complete Solutions

"One stop shop" for all sustainable energy infrastructure materials and clean energy project materials.

Lighting Services

Internal Staging

To make your lighting project easier to manage, we can store project materials in our warehouses for release to job sites on an as-needed basis.

Werner Electric takes care of:

- Replacement of damaged fixtures before they are needed on the job site
- Freight claims on damaged product
- Expediting to ensure product is available when needed
- Packing and grouping to meet your needs as you release product
- Delivery to your job site when you actually need the product
- Professionally receiving materials so that your electricians don't need to become material handlers

Staging Plus Services

Staging Plus services are individually priced for every single fixture. You select and pay for only the services you need.

Services may include:

- Material storage
- Open box, verify contents
- Repackage components
- Kit fixture hardware
- Unbox
- Label
- Fixture mounting hardware
- Fixture whip
- Cart
- Ship together/separate
- Waste management

Job Packing Carts

Projects are broken down and packaged by room or site area, divided over multiple carts, and separated by product or by job timeline.
