

## **Cable Documentation. Automated.**

Reduce cable documentation time and cost by up to 50%\* when building a new telecom room, locating installed cabling, or replacing a network switch with the *RapidID*™ Network Mapping System – developed by Panduit.

PLACE. TRACE. REPLACE. Network engineers despise the process of documenting cabling installations, tracing cables, and troubleshooting cabling-related networking problems.

## **CABLE DOCUMENTATION IS:**

**Tedious • Time consuming • Error-prone** 

Data center outages happen, and they cost money.

40%

of data center outages cost \$100,000 - \$1,000,000²

Networking/ connectivity and human error are top causes of data center **downtime**.

of ALL outages in the last 3 years are results of human error<sup>3</sup>

It's important to complete the process **right** the first time.

RapidID: EASY AS 1, 2, 3...

RapidID uses patch cords pre-labeled with unique barcodes and a Bluetooth®-enabled handheld scanner to automate labeling, tracing, and troubleshooting in **three easy steps**.

(1) INSTALL

Panduit cables pre-labeled with unique barcode labels.

2 DOWNLOAD

The mobile and from

The mobile app from iOS or Android app stores to a tablet device.

SCAN

Barcodes using the Bluetooth-enabled handheld scanner.

- Reduce the time and cost of cable documentation by up to 50%\* compared to traditional manual approaches.
   Automate the labor-intensive and error-prone cable
- documentation process that can lead to an outage.
- Free up network engineers to focus on more rewarding and strategic initiatives.

See how savings add up when replacing a network switch

Task	Traditional Approaches (Hourly)	<b>RapidID</b> (Hourly)
Documenting all wires	16	16
Create new wiring layout	4	.5
Labeling cables	8	0
Remove existing cables	2	2
Patch new cables in correct locations	4	2
Update documentation	6	.5
