Sessions & Schedule

Introduction to Industrial Safety Relays

CEU: 1.5 | Time: 4:00 - 5:30 p.m.

Learn the fundamentals of industrial safety relays and their role in safeguarding machinery and personnel. This course introduces Rockwell Automation solutions, key relay types, applications, wiring practices, and troubleshooting techniques—ideal for engineers, technicians, and safety professionals.

Introduction to Programming 525 Drives

CEU: 1.5 | Time: 5:30 - 7:00 p.m.

Learn how to select, wire, and program PowerFlex 525 drives for simple industrial applications. This course covers drive sizing, setup menu navigation, and key parameters—ideal for engineers and technicians responsible for VFD installation and troubleshooting.
