Scannable product binder

OPTION 1

Your site foreman can place orders using the Werner app.

Your Werner VMI team member will put away orders and organize storage solution carts.

Scannable label

OPTION 2

Your Werner VMI team member will order parts while visiting your location.

We will put away orders and organize storage solution carts during our visits.

STEP BY STEP ON-SITE

What you can expect during a VMI team member visit:

- Upon arrival, VMI Rep will contact site foreman via phone call/text
- Discuss and determine future site plans and needs
- Deliver materials to designated locations
- Put away material on individual carts/job boxes
- Break down, discard, or remove all packing material
- Organize job boxes, carts/storage materials
- Replace and add barcoded labels requested on previous visit
- Place order to maintain Min/Max range set by customer
- Submit order via online system
- Check return bins and process RGA requests if needed

METAL BOX ASSEMBLIES

Custom built boxes with mud rings, pigtails, and accessories you need for quick installation.

- Metal box assemblies
- Uni-mount mud ring
- Direct or floor mount
- STAB-iT® box assemblies
- Mason box stubs
- Large capacity boxes for data
- Ceiling boxes with pigtails
- Conduit bends/data drops
- Pigtailed devices

ENCLOSURE, BACK PANEL AND TUB MODIFICATION

Pre-modified nVent HOFFMAN enclosures, back panels, and tubs eliminate manual cutting on site with job-ready delivered components.

Leadtime: 1-2 weeks

- DWG, DXF (no 3D files)
- Maximum enclosure size: 90" x 90"
- Minimum back panel size: 78" x 72"
- Drawings produced for customer approval

Modification of:

- Painted carbon steel
- Stainless steel
- Non-metallic enclosures
- Panelboard tubs

PRE-FAB LIGHT FIXTURES

Pre-fabricated and staged building fixtures with expedited release to your jobsite.

- Pre-fabricated light fixture connectors
- Pre-assembled fixture whips that snap directly into the light fixture housing
 - No tools required
 - Eliminates lock and wire nuts
- Easily insert the light fixture's conductors into the corresponding parts

LIGHTNING PULL™

Up to 5½ times faster installation and easier identification with customized compact, flexible, multi-conductor cable.

- Multiple-type, custom-bundled cables on a single spool
 - Color-coded or numbered copper and electronic conductors
- Pre-made pulling heads
- Significant labor savings—one single, fast cable pull
- Simplified material management and material waste on the job
- Quick turnaround
