Stay current with the latest electrical code requirements in this Night School session covering the 2023 National Electrical Code (NEC) and Wisconsin SPS 316. Participants will explore key code changes, state-specific amendments, and how these requirements impact electrical design and installation practices. With an emphasis on real-world application, the course will help electricians, designers, and inspectors navigate Wisconsin's two-layer code system, recognize common compliance challenges, and confidently apply updated requirements in the field to help avoid inspection issues and costly rework.
