✧ INTRODUCING OUR HEAD PREFECTS 2023 ✧

GEORGE DAVEY HEAD BOY

*Physics, Biology, Geography,
Probability, Statistics, English*

I want to be a relatable leader that encourages students to be themselves to achieve their goals. I am looking forward to running and creating events with the other prefects that will enable our diverse range of students to find their place and value at Whanganui High School. If everyone can feel happy, want to attend, to contribute and to go home looking forward to the next day it will be a job well done.

SOPHIA BEDWELL HEAD GIRL

*Cambridge Mathematics, English Literature,
Physics, Chemistry, Study, Dance*

I am incredibly excited and humbled to be co-leading this year's Prefect Team. I truly believe that you get out what you put into your time here at Whanganui High School. Throughout the year I will be encouraging all students to have a go and get involved with all the opportunities we have to offer. My best advice is to push yourself out of your comfort zone, try something new and talk to people you don't know. I wish you all the best and I am looking forward to what 2023 has to bring!

LIAM CROMAR DEPUTY HEAD BOY

*English Literature, Geometry & Calculus, Engineering,
Physics, Outdoor Education, Electronics*

I'm very excited to be working alongside my fellow prefects for my final year at Whanganui High School. I believe that all student voice should be heard. The Student Council allows student voices to be recognized so that we can make the school an even more positive environment for people to learn and grow. I would love to see students try all of the amazing opportunities that we offer here at Whanganui High School. I look forward to what the rest of this year holds. Let's make it a good one!

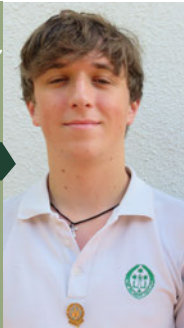

CHARLOTTE HARDY DEPUTY HEAD GIRL

*Chemistry, Physics, Geography, Geometry & Calculus,
Physical Education, Sports Smart, Study*

I am excited to be taking on the role of Deputy Head Girl at Whanganui High School this year. One of my favourite parts of Whanganui High School is student voice and I hope to heighten this throughout the year with my work on the Student Council. Being given the opportunity to work with amazing students around the school means we can work towards leaving our own legacy for future generations of school students. We will continue to support and advocate for other students throughout the school to help ensure a happy, fun school environment for everyone.

PHILIP DALE

*Mathematics Calculus & Algebra,
Mathematics, English Literature,
Digital Technologies Science,
Study, Physical Education*

RIA SINHA

*Mathematics Calculus &
Algebra, Study, English
Literature, Physics, Biology,
Chemistry*
