| 14   | ASSE Approved Mixing Valve              | 239-51778-00      | 239-51778-00      | 239-51778-00      | 239-51778-00       |

\* A combination temperature and pressure relief valve is required by code as a protective device.

It is not normally supplied by the tank manufacturer as original equipment. It is traditionally provided by the installer and is shown here for replacement parts purposes. The T&P valve for these storage tanks must be rated for the BTU input of the heater of the system where installed. P/N 265-32920-01 T&P valve 3/4" NPT male thread rated to 100,000 BTU.

# Anodes may need to be cut to length.
