

BRADFORD WHITE
WATER HEATERS

— BRADFORD WHITE IS —
AMERICAN STRONG

RESIDENTIAL WATER HEATERS & STORAGE TANKS POCKET CATALOG

Products made by Bradford White are manufactured in the United States using the finest raw materials and components from around the world.

Committed to
Professional Installation.

SALES DEPARTMENT

For questions regarding where to purchase water heaters or who your local Bradford White representative is, call:

800-523-2931

24/7 TECHNICAL SUPPORT

For questions during and after installation, including sequence of operation, diagnosis, and repair assistance.

Phone: 800-334-3393

Email: techserv@bradfordwhite.com

PRODUCT SUPPORT

Pre-Installation support such as product sizing, performance, application, and clarification questions.

Phone: 844-235-4958

Email: products@bradfordwhite.com

24/7 WARRANTY SUPPORT

For questions regarding tank and/or parts warranty and limitations on warranties.

Phone: 800-531-2111

Email: warranty@bradfordwhite.com

Products made by Bradford White are manufactured in the United States using the finest raw materials and components from around the world.

What American Strong means to Bradford White.

American Pride has always been in everything we do. Bradford White began over 135 years ago with a simple vision, to deliver high quality, superior products made by American craftspeople.

We are committed to American manufacturing. We are an American-owned company, with all our manufacturing facilities located in the United States. Bradford White proudly employs over 1,800 people at our American facilities.

We proudly support the professional. At Bradford White, we focus on the professional. Our quality product deserves a quality installation.

American Strong...around the world. Bradford White products are available to professionals around the world. For example, our Halton Hills, ON sales, training and distribution center provides full support to our Canadian customers.

Built to be the Best®. Bradford White proudly brings American ingenuity and quality to customers around the world. By combining American Strong manufacturing with select components and products sourced from top international partners, the result is all Bradford White products are Built to be the Best® - now and in the future.

Products made by Bradford White are manufactured in the United States using the finest raw materials and components from around the world.

WE'RE HERE FOR THE PRO.

And We Mean It.

At Bradford White, our business is being there for your business. Our job is to help you serve the needs of contractors, installers and specifying engineers. And that's not just talk - we stand behind you every day. **When you sell Bradford White, you can always count on getting:**

Built to be the Best® water heaters, boilers and tanks that deliver top quality, high performance and unmatched reliability.

Unparalleled Tech Sales Support, so you have all the resources you need to make sure the needs of your customers are met.

Marketing Materials to help you communicate with your professional customers and prospects more effectively than ever before.

Our Exclusive For The Pro® Website - full of tools to help you build your business and ensure your success.

General Information About the Products in this Catalog

1. All Gas Water Heaters are design certified by CSA International (formerly AGA and CGA) in accordance with ANSI Z21.10.1 or 10.3 (latest addition). Closed Combustion Manufactured Home Water Heaters, are listed by Intertek (ETL).
2. All Electric Water Heaters are listed by Intertek (ETL).
3. All Residential Storage Models meet or exceed efficiency requirements of the Department of Energy. ASHRAE standard 90.1b (current standard) and the National Appliance Energy Conservation Act of 1987, recent amendment effective April 16, 2015 which supercedes all state and local efficiency requirements.
4. All Tank Type Water Heaters are certified at 300 PSI test pressure and 150 PSI working pressure (except where noted).
5. All Residential Water Connections are ¾" NPT on 8" centers (except where noted).
6. All Residential Gas Models have ½" NPT Gas Connections (except where noted).
7. All Residential Water Heaters come with a T&P Relief Valve included (except where noted).
8. MANUFACTURED UNDER ONE OR MORE OF THE FOLLOWING U.S. PATENTS: 5,682,666; 7,634,976; 5,660,165; 5,954,492; 6,056,542; 6,935,280; 5,372,185; 5,485,879; 5,574,822; 7,971,560; 7,992,526; 6,684,821; 7,334,419; 7,866,168; 7,270,087; 7,007,748; 5,596,952; 6,142,216; 7,699,026; 5,341,770; 7,337,517; 7,665,211; 7,665,210; 7,063,132; 7,063,133; 7,559,293; 7,900,589; 5,943,984; 8,082,888; 5,988,117; 7,621,238; 7,650,859; 5,761,379; 7,409,925; 5,277,171; 8,146,772; 7,458,341; 2,262,174. OTHER U.S. AND FOREIGN PATENT APPLICATIONS PENDING. CURRENT CANADIAN PATENTS: 2,314,845; 2,504,824; 2,108,186; 2,143,031; 2,409,271; 2,548,958; 2,112,515; 2,476,685; 2,239,007; 2,092,105; 2,107,012.
9. All dimensions are in inches (unless otherwise noted). Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.
10. All products manufactured by Bradford White Water Heaters are designed, fabricated, and assembled in Middleville, MI. All raw materials and component parts are sourced from American companies for the highest level of American made content and manufacture, whenever possible.

INNOVATION AND RESOURCES

The Hydrojet® Total Performance System

The Hydrojet® Total Performance System helps reduce the accumulation of sediment buildup within the water heater resulting in better efficiency, longer tank life, more consistent temperatures, and a larger volume of hot water to meet your customer's needs.

Vitrage®

Bradford White water heaters are lined with the exclusive Vitrage® enamel to provide unsurpassed protection so your customer's water heater lasts longer.

INNOVATION AND RESOURCES

The Defender Safety System® and Eco-Defender Safety System®

Designed for our gas-fired water heaters, the Defender Safety System® and Eco-Defender Safety System® helps protect families and their homes by resisting the ignition of flammable vapors from a spill outside the water heater. This technology gives them the peace-of-mind that their water heater will provide hot water safely and efficiently.

DEFENDER
SAFETY SYSTEM®

Eco-DEFENDER
SAFETY SYSTEM® WITH SCREENLOK® TECHNOLOGY
ULTRA LOW NOx SERIES

The Bradford White ICON System® Intelligent Gas Control Valve

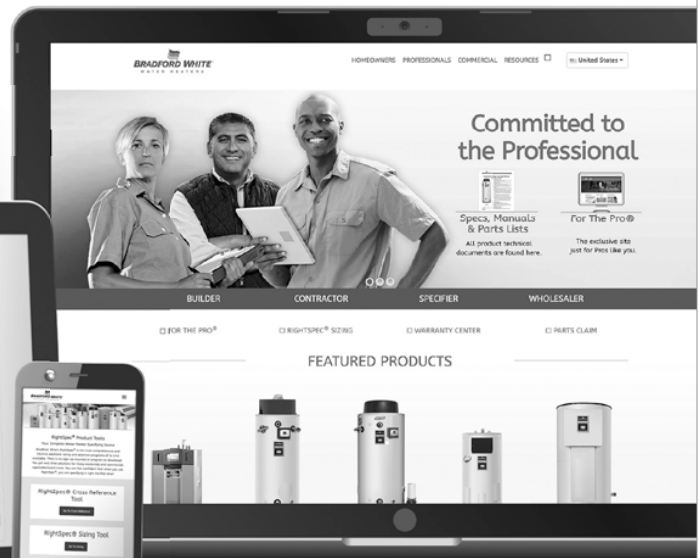

The ICON System™ is an exclusive gas control technology that provides you with numerous performance and energy-saving benefits such as an enhanced First Hour Delivery ratings and tighter temperature differentials. Intelligent Diagnostics assist in installation and troubleshooting through a multi-color LED light easily visible from a standing position.

239-37022-04	50"-98 ¹ / ₂ "	54 ¹ / ₂ "-109 ¹ / ₂ "	48" / 90"

Includes: roof jack, hardware, air intake, instructions.

Spec 1107. For additional documentation visit: www.bradfordwhite.com/documentation

This water heater is of the closed combustion type (direct venting) for mobile home applications only, where all combustion air is supplied from the outdoors through the air intake and all combusted gas products are vented directly to the outside by means of the roof jack. No draft diverter (vent hood) is required for this water heater. The ETL listing of this water heater includes the field installation of the following components: roof jack, roof jack clamp, air intake, air intake seal, and heater tie down materials. These components for field installation are shipped with the heater in a separate box and must be installed according to instructions. No other components are approved for use with the water heater. The water heater must be installed in accordance with The Federal Mobile Home Construction and Safety Standard or in the absence of such standard, The Standard for Mobile Homes (ANSI/NFPA No. 601B-1977)

Propane (LP) Models are not available for order from the factory.

All Natural Gas products shipped can be converted to Propane (LP) without the purchase of an additional kit.

Requires an electrical power supply from a 120VAC 60Hz., properly rated receptacle and must be properly grounded. Power supply cord provided.

★ = ENERGY STAR® Qualified.

Intelligent Cascading Kit:

* Any indoor Infiniti® K-Series tankless water heater purchased with the serial number "TEB0008188" and after, will have cascading technology available.

Up to 24 units can be connected together with ease.

Part Number 7736502750 (One for each additional water heater).

Optional Condensate Neutralizer Kit: Part Number A2123601.

Residential Electric Energy Saver Water Heaters

52/53

General Information

Specify voltage and wattage when ordering.

All models are ETL listed. All water connections are 3/4" NPT true dielectric fittings. All electrical connections are 3/4". All models are certified at 300 psi test pressure and 150 psi working pressure. All models come equipped with two installed heat traps (except Utility, and RE120L).

Note: The **Upright** and **Lowboy** heaters will be wired single phase interlocking (non-simultaneous) 240 volt with 4500 watt elements, unless otherwise specified. Other wattages are available up to 6000 watts (208, 240, 277 and 480 volt). (Reference chart on following page for non-simultaneous and simultaneous limitations). 4500 watt/240 volt elements require a 25 amp or 30 amp circuit breaker. For 120 volt (non-simultaneous), all models have a maximum wattage of 3000. (120 and 277 volt can only be wired single phase.)

Note: The **Utility** Heaters will be wired for 120 volt with a 1500 watt element. The 1500 watt/120 volt element requires a 20 amp breaker. Other wattages are available. Maximum wattage for 6 and 12 gallon tall utility models is 3000W. Maximum wattage for 10, 15 and 20 gallon utility models is 6000W.

Residential Electric Specialty Products

KwickShot® Tankless Electric Water Heaters

64/65

Single Point Flow Controlled, Non-Thermostatic Models (Single Phase Only)

Flow Controlled Models Feature:

- On Demand Hot Water—No delay.
- Continuous Hot Water—No storage capacity to run out.
- Self-diagnostics With Intelligent Controls—Actively protect heater in installed environment.
- LED Indicator—Communicates system status and heater operation feedback.
- Low Flow Activation—Starting at .25 GPM turn on (model dependent).
- Dry-fire Protection—Engages upon start-up to help avoid dry-fire occurrence.
- Flexible Installation—Unit can be installed in any plumbing orientation.
- Compact Size—Fits almost anywhere; suitable for ADA compliant facilities.
- Easy Installation—Only one cold water line needed for installation.
- No T&P Relief Valve Needed—Ready to go, right out-of-the-box (check local codes).
- Integral 3/8" Compression Fittings—No sweat connections or soldering required.
- Control System—Activates heater only on demand.
- Bare Wire Technology—Responsive non-thermostatic tankless technology.
- Automatic High Temperature Limit Reset—Enables safe operation (USA Models only).
- Warranty—5-year limited warranty on leaks, 1-year on parts.

Dimensions:	10.5" H x 5.25" W x 3" D
Product Weight:	(model dependent) 2.75 lb/3 lb
Cover:	ABS-UL 94 5VA
Color:	White
Minimum Operating Pressure:	30 PSI
Maximum Operating Pressure:	150 PSI
Element:	Replaceable nichrome cartridge insert
Fittings:	3/8" compression fittings

U.S. Patent Pending Technology.

Note: For optimum performance, mounting location should be located within 2 feet of fixture.

FOR THE PRO
bwfortheopro.com

* 240V units can be used on 208V single phase with 25% reduced temperature output. Please note per UL standards the rating plate and installation instructions will all be according to a 240V applied voltage. Check with local officials prior to derating the electrical infrastructure.

page 65

Residential Electric Specialty Products

KwickShot® Tankless Electric Water Heaters (continued)

66/67

Thermostatic Models (Single Phase Only)

Thermostatic Models Feature:

- Self-diagnostics With Intelligent Controls—Actively protect heater in installed environment.
- Digital LED Display—With accessible user interface communicates system status and heater operation feedback.
- Dry-fire Protection—Engages upon start-up to help avoid dry-fire occurrence.
- Flexible Installation—Unit can be installed in any plumbing orientation.
- Compact Size—Fits almost anywhere; suitable for ADA compliant facilities.
- Easy Installation—Only one input line, hot or cold, needed for installation.
- Industry's Lowest Activation—With 0.2 GPM turn on flow.
- Silent Operation on All Models—Except TET115V240.
- No T&P Relief Valve Needed—Ready to go, right out-of-the-box (check local codes).
- Integral 3/8" Compression Fittings—No sweat connections or soldering required.
- Control System—Activates heater only on demand.
- Designed to Deliver Hot Water—To a single pipe faucet, mixing valves or mixing faucets.
- Save Water and Time—By installing unit at the point-of-use.
- Active Energy Management With Power Modulation—Allows for thermostatic accuracy.
- High Temperature Limit Switch—Enables safe operation.
- Warranty—5-year limited warranty on leaks, 1-year on parts.

Residential Gas Combi1® Single-Wall Atmospheric Models

70/71

- Defender Safety System® featuring the patented advanced ScreenLok® Technology flame arrestor design (50 gallon model only)
- Resetttable Thermal Switch
- Maintenance-Free
- Sight Window
- Pedestal Base

All Combi1® Models Feature:

- Bradford White ICON System®
 - Enhanced Performance
 - Advanced Temperature Control System
 - Intelligent Diagnostics
- Heat Exchanger—Single-wall 1½" O.D. enamel coated (Vitrage®) Steel Coil
- Provides Domestic Hot Water and Space Heating in One System
- Low Heat Exchanger Head Loss—Up to 10 GPM flow, with less than 5 ft. of Head Loss
- Vitrage® Lining
- Hydrojet® Total Performance System

- Water Connections – 3/4" NPT true dielectric fittings
- 1" Front NPT Supply and Return Connections
- 2" Non-CFC Foam Insulation
- Two Protective Anode Rods
- T&P Relief Valve
- Low Restrictive Brass Drain Valve
- Thermostatic Mixing Valve (ASSE Approved)

DOE Water Heater Performance

Model Number	Maximum First Hour Rating (Gal.) @ 140°F	Continuous Draw Rating (Gal./Min.) @ 115°F	Approximate Boiler Output Needed for Ratings (BTU/Hr.)
SW-2-30-L	279	4.2	220,000
SW-2-40R-L	288	4.2	220,000
SW-2-50R-L	297	4.2	220,000
SW-2-65-L	306	4.2	220,000
SW-2-80-L	321	4.2	220,000
SW-2-120-L	357	4.2	220,000

Note: Based on 200°F boiler water temperature and 50°F potable water inlet temperature.

AHRI Certified Water Heater Ratings

Model Number	First Hour Delivery @ 135°F (Gal.)	Continuous Draw Rating @ 135°F (Gal./Hr.)	Standby Heat Loss Rating (°F/Hr.)	Minimum Output Rate of Heat Source (BTU/Hr.)	Minimum Heat Source Flow Rate (Gal./Min.)
SW-2-30-L	255	235	1.2	157,000	13.7
SW-2-40R-L	260	235	1.1	157,000	13.7
SW-2-50R-L	265	235	0.9	157,000	13.7
SW-2-65-L	275	235	0.7	157,000	13.7
SW-2-80-L	295	235	0.6	157,000	13.7
SW-2-120-L	325	235	0.4	157,000	13.7

Note: These certified ratings were obtained with a heat source output rate and flow rate as specified and a 180°F boiler water supply temperature. Other results will be obtained under different conditions.

Residential PowerStor2™ Series Double-Wall Indirect Models

80/81

- Heat Exchanger—Double-wall 1½" O.D. enamel coated (Vitraglas®) steel coil
- Head Loss—Up to 10 GPM flow, with less than 5 ft. of Head Loss
- Vitraglas® Lining
- Hydrojet® Total Performance System
- Water Connections—¾" NPT true dielectric fittings
- 2" Non-CFC Foam Insulation
- Surface-Mount Thermostat
- Two Protective Magnesium Anode Rods
- T&P Relief Valve
- Low Restrictive Brass Drain Valve
- Limited Lifetime Warranty on Tank and Heat Exchanger
- AHRI Certified
- Standard Heat Loss—Less than 1/2 °F per Hour (ASHRAE 90.1b Current Standard)

DW-2-50-L

Residential PowerStor Series® SS Single-Wall Indirect Models

82/83

- Stainless Steel Heat Exchanger—Single-wall 1" O.D. stainless steel coil
- Stainless Steel Tank and Heat Exchanger—Made from Chromium Molybdenum - Titanium Ferritic 444 Stainless Steel Alloy
- Immersed Adjustable Aquastat—Fast acting immersion aquastat for automatic temperature control
- Supply and Return Connections—1" NPT female connections are located on the front for both the Boiler Supply and Boiler Return
- 2" Non-CFC Foam Insulation
- Potable Water Connections—3/4" NPT dielectric fittings extend water heater life and eases installation (1" NPT on SS-120-L)
- T&P Relief Valve
- Low Restrictive Brass Drain Valve (Excluding the SS-120-L)
- AHRI Certified

Coverage may vary, please contact the Bradford White Warranty Department for specific details.

Some states do not allow limitations on warranties. See copy of the Warranty included with the heater.

* Heat Exchanger Only

** 10 year parts warranty on warranty upgrade kit models only

† Heater Body Element Assembly.

Tank Type Serial Number Identification

FIRST LETTER - YEAR OF MANUFACTURE

K = 1993	S = 1998	Z = 2003	E = 2008	K = 2013
L = 1994	T = 1999	A = 2004	F = 2009	L = 2014
M = 1995	W = 2000	B = 2005	G = 2010	M = 2015
N = 1996	X = 2001	C = 2006	H = 2011	N = 2016
P = 1997	Y = 2002	D = 2007	J = 2012	

Bradford White uses a 20-year letter designation rotation in serial numbers. Therefore, please be aware that water heaters manufactured 20 years apart will have the same serial number "letter year" designation. (i.e. A = 2004 and 1984).

SECOND LETTER - MONTH OF MANUFACTURE

A = JANUARY	E = MAY	J = SEPTEMBER
B = FEBRUARY	F = JUNE	K = OCTOBER
C = MARCH	G = JULY	L = NOVEMBER
D = APRIL	H = AUGUST	M = DECEMBER

Example:

FC12345678 = MARCH, 2009 Production

NA12345678 = JANUARY, 1996 Production
