

FLEXIBILITY for the new construction and room-side retrofit from one fan.

Versatile Installation. Airtight Performance. LED Lighting.

Flex Series gives professionals smart options for new construction or roomside retrofits in one, hard-working product line. Flex is about innovations such as FoldAway™ mounting ears TruSeal™ Damper Technology that improves building airtightness like never before. With fresh grille designs and a full range of operating points, there's a Flex Series solution for every installation.

More features from one fan.

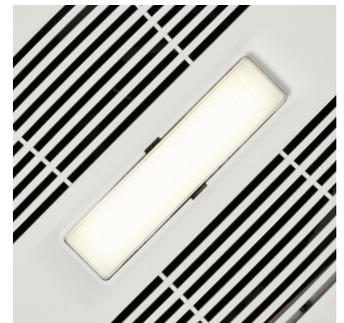

FoldAway™ Mounting Ears are precisely positioned for new construction and fold flat for room-side retrofits.

With our TrueSeal™ Damper Technology, Flex fans reduce air leakage by up to 50% compared to competitive models¹.

EzDuct™ Connector enables room-side installation without attic access.

LED Lighting offers greater energy efficiency and longevity, and adds a unique design detail to this hard-working fan.

¹ Testing reflects total fan housing air tightness. See Broan.ca for details.

NEW Snap-Fit Flange²

Both new construction installation and retrofit upgrades just got easier. Add the flange by simply snapping it on the side of the fan housing or go flangeless.

² Included in the housing packs only (A000HFKTC, A000HFKTC6)

FLEX FAN MODELS

Model	CFM	Sones	ENERGY STAR®
AER50C	50	0.5	Yes
AE80B	80	1.2	Yes
AE80	80	0.7	Yes
AE110	110	1.0	Yes
A110	110	3.0	No
