

WATTI PRO PEDESTAL

A convenient charging station pedestal, perfect for parking lots and driveways where wall mounting isn't ideal.

Easy and cost-effective installation: ground-mounted with 4 bolts, concrete pad recommended. Single and dual pedestal options available.

Securely mounts to a prepared concrete base.

Robust steel construction for durability in all types of weather

Compact size and minimal footprint for small spaces.

Rust and corrosion protection

Optional cable retractor for cord management

Optional Configurations

- Heavy-duty steel construction
- Stainless steel hardware included
- Engineered for durability & stability
- Access panel for easy installation
