TOOLS NEEDED:

DO NOT USE:

- 1. Separate snap-on insert from bolt cap.
- Remove nut and washer from bolt located on base of bowl.* With correct side up, place snap-on insert over thread of bolt.
- 3. Replace existing washer and nut.
- 4. Snap on bolt cap.

*To avoid removing nut and washer from floor bolts, fill bolt cap with caulking or silicon sealant and position over floor bolt. Follow instructions on caulking package. Discard snap-on inserts.
