INSTALLATION INSTRUCTIONS FOR GAS APPLIANCE REGULATOR

CSA Certified ANSI Z21.80 / CSA 6.22
CSA Certified ANSI Z21.18 / CSA 6.3 (Vent Limiter Included)
CSA Certified Indoor/Outdoor Application

DANGER
Failure to follow these instructions may result in an explosion or fire that may cause property damage, serious injury or death.

Model:	GR-207VL	Model:	GR-211VL
Inlet Pressure:	2 PSI	Inlet Pressure:	2PSI
Outlet Pressure Setting:	7" W.C. (Non-Adjustable)	Outlet Pressure Setting:	11" W.C. (Non-Adjustable)
Maximum Load:	65,000 BTU/h (Natural Gas)	Maximum Load:	100,000 BTU/h (Propane)
Temp:	-40°F to +250°F	Temp:	-40°F to +250°F
Vent Connection:	5/16-24 (Vent Limiter Included)	Vent Connection:	5/16-24 (Vent Limiter Included)
Orientation:	Regulator can be mounted in any direction	Orientation:	Regulator can be mounted in any direction
Gas:	Natural Gas	Gas:	Propane

Caution
If venting externally regulator must be piped in accordance with government and local codes and regulations.

Installation:

Warning
Be sure all instructions are read and understood before installation, operation and service. Failure to do so may result in an explosion or fire causing severe injury or death.

Caution
This regulator should be installed and adjusted by a qualified LP Gas technician. Contact a qualified LP Gas contractor or dealer for installation.

1. Installation shall be performed in accordance with local codes, or in the absence of local codes, in accordance with the National Fuel Gas Code, ANSI Z223.1/NFPA 54, or the Natural Gas and Propane Install Code, CAN/CSA-B149.1, as applicable.
2. The regulator is intended for natural gas or propane vapour service only. DO NOT CONNECT TO LIQUID PROPANE SYSTEMS
3. To minimize the possibility of debris/insects blocking the vent keep the vent cover in place. Vent cap should be in place for outdoor use to protect the vent from snow, rain and other foreign particles
4. Use an approved pipe dope or tape when making threaded pipe connections.
5. If an electronic detector is not available, test connections for leaks with Gas-Flo leak detector or other commercial leak detector solution.

Warning
Never check for leaks with an open flame, do not check for leaks using ammoniated or chlorinated household type detergents, these can cause cracks to form on the metal, tubing and brass fittings.
