

# 2015 SHOWER KITS

GROHE.CA 

*Pure Freude an Wasser*

**GROHE**  

Effective February 9, 2015

## INDULGE YOURSELF

GROHE Canada offers a series of shower kits that provide convenience and unbeatable value. Available across all design styles, these all-in-one kits include the most popular features for shower systems. At the heart of each shower kit is the GROHE valve on which we have built our reputation for quality and reliability. It powers the entire system and ensures optimum water delivery. GROHE hand showers and shower heads offer several GROHE technological advancements that deliver performance, comfort, and durability. Throughout this brochure, you'll find references to these innovations, all of them developed to make your experience with GROHE different, special, and enjoyable.

## Adding a Tub Spout to a Shower Kit

Adding a tub spout to a shower kit is simple and easy! Simply choose a diverter tub spout that matches one of the kits and pair it with a Twin Ell (03671000) to direct water from the tub spout to the shower head.

This solution works for the following shower kits:

117161	117162	117163	117166
117167	117170	118050	122627
122628	122700		

**03 671 000 \$34.20**

Twin Ell

Order Twin Elbow and spout separately.
