

Removing spring hose clamps has never been easier. These Hose Clamp Pliers have rotatable tips, making them maneuverable from different angles and easier to use in confined areas.

7 1/4" version is perfect for smaller engines up to 2"

10" version can be used on a variety of clamps up to 2 3/4"

- > rotatable tips for securely gripping the clamps in all positions
- > jaw inserts can also be rotated under load
- > extremely good leverage which allows clamps to be opened and moved easily without great effort
- > slim head design, narrow head width, and rotatable grip inserts make this an ideal tool especially in confined areas
- > detach hoses gently using the serrated jaw behind the tips
- > chrome vanadium electric steel; forged, oil-hardened

85 51 180 A

85 51 250 A

A single pair of pliers for various sizes of clamps up to 2 3/4" diameter. Rotating jaw inserts enable them to adapt to any position while still guaranteeing that clamps are securely positioned in the pliers.

APPLICATION AREAS CARS/TRUCKS

Air suction, cooling, charge air, water return, thermostat, fuel, heating
