

KNIPEX Pipe Cutters

For composite pipes and pneumatic hoses

Pipe Cutter for plastic composite pipes

Clean cut: cuts aluminum composite and plastic pipes

- ▶ The rotating cutting wheel penetrates the pipe effortlessly with minimal deformation
- ▶ For cutting aluminum composite and plastic conduit pipes up to 1" in diameter
- > Wide plastic supports allow perfect right-angled cuts
- > Up to 60% less effort: the freely rotating cutting wheel allows the pipe to be rotated with minimal friction when cutting
- > Allows for very short cuts
- > Locking mechanism for safe transport
- > Spare cutting wheel available

Part Number	↔ inch	Cutting Capacity Ø inch
90 25 25	8 1/4	Up to 1"
90 25 25 E01	spare cutting wheel for 90 25 25	

90 25 185

Pipe Cutters for plastic composite pipe, multilayer and pneumatic hoses

Perfect cutting results

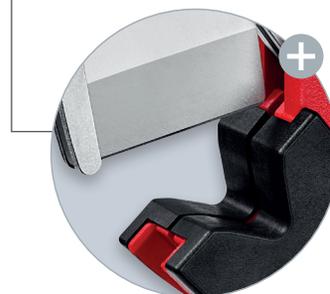

- ▶ The 90 25 185 will cut composite pipes from 1/2" to 1" in diameter with ease
- ▶ The 90 10 185 is ideal to cut multilayer and pneumatic hoses from 3/16" to 3/4" in diameter
- > Perfect for repetitive cutting due to opening spring
- > Spare blades can easily be replaced
- > With opening spring and locking device
- > Handles made of fiberglass-reinforced plastic
- > Not suitable for cutting cables
- > Blades made of high-strength special grade steel, oil-hardened and tempered

Part Number	↔ inch	Cutting Capacity Ø inch
90 10 185	7 1/4	3/16" to 3/4"
90 25 185	7 1/4	1/2" to 1"
90 29 01	spare blade for 90 10 185 and 90 25 185	

90 25 185

90 10 185

The wide support base aligns the hose at a perfect right angle to the blade
