- Switch frame shields against dust and fits in wallplate to prevent rocker binding
- Terminal screws accept up to #12 AWG copper or copper-clad wire
- Quickwire push-in terminals accept #14 AWG solid copper wire only
- Sturdy construction for long service life
- Full-rated current capacity with tungsten, fluorescent or resistive loads. Motor capacity is 80% of switch rating
- Self-grounding when installed in a properly grounded metal box
- Complements every décor
- Limited 2-year warranty
- NOTE: In Canada, a general-use switch does not require attachment to a grounding/bonding wire when installed in a grounded/bonded flush device box.
