

Leviton Load Center Outdoor Panel for Canadian Market

Cat. No. LR210-BDC

APPLICATION

The Leviton Outdoor Load Center is easy to install and designed to withstand the elements. It features a gray, weather-resistant enclosure with a solid cover housing white circuit breakers.

FEATURES AND BENEFITS

- Terminate all hot and neutral wires at custom lugs in the panel, not at the circuit breaker*
- The entire panel can be wired at rough-in without circuit breakers installed
- At final installation, simply plug-on the circuit breaker
- No pigtails on circuit breakers
- Copper bus is standard
- Leviton GFCI, AFCI and Dual Function circuit breakers feature our patented reset lockout and will not reset if ground- or arc-fault protection is compromised
- Intuitive LEDs help communicate trip condition and type of fault (AF/GF) and remain illuminated even when the circuit breaker is in the tripped state

*For applications up to 60A when using copper wire; or 50A when using aluminum wire

ELECTRICAL SPECIFICATIONS

Short Circuit Current Rating: 22 KA
Voltage: 120/240 VAC
Bus bar rating (all panels): 225A

MECHANICAL SPECIFICATIONS

Busbar Material: Copper, Bright Tin-Plated
Enclosure Material: Galvanized Steel, Gray Baked Enamel
Ground Connection: 4 AWG - 2/0 AWG Cu/Al
Supply Connections: 3 AWG - 300 MCM Cu/Al

ENVIRONMENTAL SPECIFICATIONS

NEMA Enclosure Type: NEMA 3R Outdoor
Operating Temperature: -40°C to 70°C

STANDARDS & CERTIFICATIONS

CSA Std. C22.2 No. 29-15
Certificate 70170209
UL 67: File E480408
UL 50
UL 50E
UL 869A
