

Telephone Wall Jack, 6P6C, Screw Terminal, Stainless Steel

APPLICATION

Leviton single-gang stainless steel wallplates are ideal for applications where telephone connection plates are needed. The durable stainless steel cover plate provides a neat, professional finish. Telephone wallplates with 6 Position 6 Conductor (6P6C) conductor modules include screw terminals for a fast and secure install. Wall mounting a telephone is easy with stainless steel mounting points that secure a telephone to the wallplate.

SPECIFICATION

The Stainless-Steel 6P6C Telephone Wallplate shall meet all applicable standards: cULus listed and FCC Part 68. The mounting plate and cover plate shall be made of stainless steel and include lugs for mounting a wall-mountable telephone. The plate shall fit standard NEMA openings. Plastics used in construction of the jack housing shall be high impact flame retardant ABS, with a UL flammability rating of 94V-0. The telephone wallplate shall support screw terminal connection. USOC color coding shall be indicated on the connector mounting plate assembly.

FEATURES

- Brushed stainless steel finish ٠
- Screw terminal termination
- Stainless steel mounting points secure a telephone to the wallplate
- · Wall phone jacks available in 6-conductor models

DESIGN CONSIDERATIONS

- Mounts to single-gang back-box or four-square box with appropriate user-provided reducer
- #6-32 mounting screws included
- USOC wire color coding ٠

STANDARDS COMPLIANCE

- cULus listed
- FCC part 68
- Flame retardant UL 94V-0 plastic

PHYSICAL SPECIFICATIONS

Dimensions: Materials:

4.57" x 3.05" x 0.52" Mounting and cover plate: Stainless steel Jack housing: High-impact flame retardant ABS rated UL 94V-0 Contacts: Phosphor bronze alloy with minimum of 15 µin of gold over 100 µin of nickel

COUNTRY OF ORIGIN

Taiwan
