

Whole House Automation Made Simple

Leviton and Samsung SmartThings.

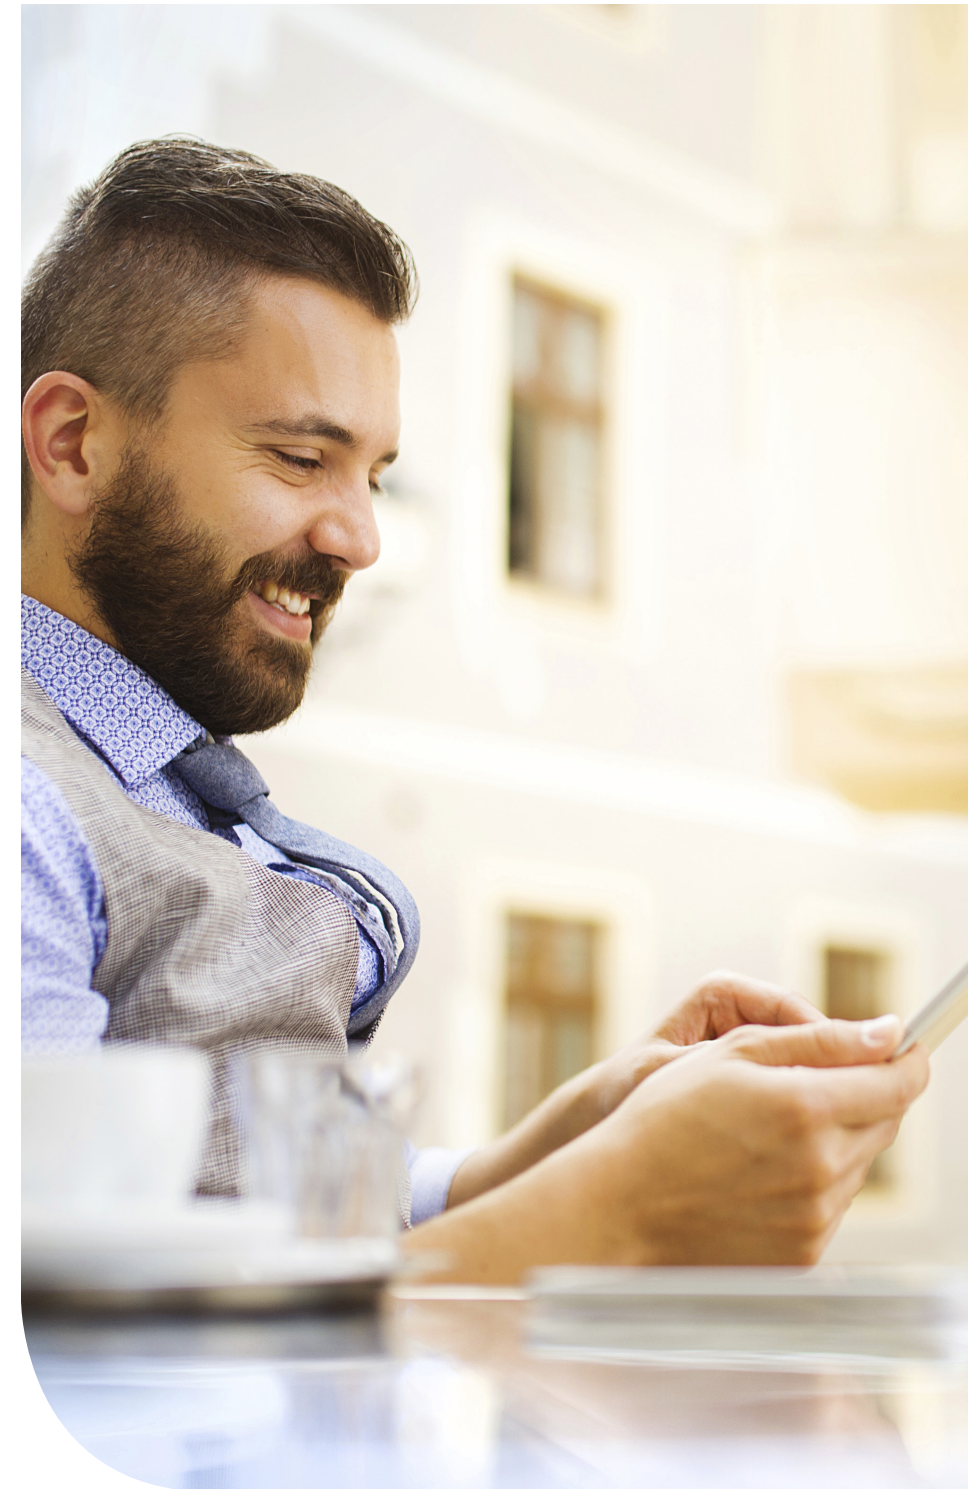

Whole house automation is made simple with a strategic partnership between Samsung SmartThings and Leviton, resulting in a pre-packaged home automation starter kit complete with two Z-Wave Plus lighting controls.

The bundled kit includes the Samsung SmartThings Hub, a wireless Leviton universal dimmer, and a wireless Leviton light switch to get started with a smart home installation. Easily add plug-in modules, thermostats, sensors and more lighting controls to expand. Certified solutions in the program include door locks, water shutoff valves, doorbell systems, cameras, and other smart options.

Get started with the Hub, dimmer, and switch, which can be custom installed by a Leviton contractor. Request a consultation from a professional today.

Simplified Home Automation

- App-based setup simplifies installation and automation scheduling
- Control every light in your home via schedule, voice, or scene
- Complete your home automation system by adding third-party security, energy management and entertainment products
- Set Leviton lighting to activate upon motion using wireless sensors
- Control and automate multiple lights with one button from iOS or Android
- Set routines for what the home should do while asleep, awake, away, or home

Automate your home with a professionally installed solution.

Control and automate lights, save money on energy, include connected thermostats, and add a wide variety of third party solutions like door locks and irrigation control to create a truly custom yet affordable and accessible smart home.

Receive important notifications about what's happening at the house, control smart devices with a simple tap, and automate the home to react to unique preferences.

A smart way to simplify your life.

"I made a Good Night Routine that turns off electronics and interior lights at bedtime."

Requires SmartThings Hub or compatible device with SmartThings Hub functionality. Products sold separately.

“Alexa, Turn on My Lights”

Want to expand beyond Leviton lighting controls, heavy-duty load controls, sensors, thermostats, receptacles, and other smart devices? The Samsung SmartThings Hub allows installers to provide additional product integrations that are Z-Wave Plus and ZigBee enabled and certified with the Works with SmartThings program.

The lights that I can turn on with my voice.

“I can turn on the kitchen lights by simply saying ‘Alexa, turn on the kitchen lights.’”

Requires SmartThings Hub or compatible device with SmartThings Hub functionality. Products sold separately.
