

LINEAR MADE EASY

STRIPE is linear made easy. This sleek, plug-and-play, linear lighting system is designed for modern spaces. The easy to install construction enables seamless power connections through junction boxes, electrical device boxes, hardwiring and plug-in. Available in multiple lengths and capable of joining up to 150ft with no light gaps. STRIPE's modular design allows for creative configurations, from linear runs to geometric shapes making it perfect for corridors, bathroom vanity lights, kitchen islands, gyms, offices and more.
