Features

Puck Light
A 2 watt per LED puck maintains a cool to the touch LED. The LEDs are rated for 50,000 hours. The opal glass shield provides for even lighting.

Light Output
This LED puck light is available in warm white (3000°K) or neutral white (4000°K) colour temperature, providing 130 lumen output per puck, 120° beam angle.

Linkability
Any two puck lights may be linked together with a maximum distance of 52". Up to five pucks from a 12V DC in-line driver (15W max) may be linked in-line (maximum distance from driver to last puck is 10m (33')).

Mounting
These pucks can be surface mounted or recessed. Surface mounting is achieved with the included mounting ring (mounting hardware included), while recessed mounting is achieved with the pressure clips provided on the puck light.

Dimming
Dimmable when used with a dimming driver

Kit Includes
• Three LED puck lights
• One 6' power cord
• One 12V (12 watt max) in-line non-dimming LED driver
• Five port wiring hub
• Mounting hardware
• Rotary switch

Operating Temperature
*-20°C ~ 55°C (-4°F ~ 131°F).

Approvals
cULus listed.

Description
This LED puck light provides an even warm light that delivers enough illumination for any work surface or display, all while consuming less energy than their halogen equivalent. They provide task or accent illumination in residential and commercial indoor applications.
