

Wafer™ LED

Economical Recessed Downlighting for Shallow Ceiling Plenum Applications

Ultra-Thin Recessed Downlighting with Remote Driver Box for Quick, Simple and Housing-Free Installation.

Affordable Wafer 4" and 6" LED Downlights provide high-quality light output and efficiency while eliminating the need for recessed housings. The innovative, slim design allows for easy remodel or new construction installation from below the ceiling. **With its narrow design, the Wafer can be installed in applications with only 2" plenum clearance (for 6" Wafer) and 3" plenum clearance (for 4" Wafer).** The Wafer LED downlight is wet location listed – making it ideal for use in a breadth of outdoor residential, hospitality, commercial and multifamily applications.

Key Features:

- Easy to install, saving labor and extra housing costs
- IC rated – safe to install in direct contact with insulation
- Edge-lit LED technology provides even illumination
- Available in 3000K and 4000K color temperatures
- 90CRI; 120V remote driver suitable for pulling wires with the 12 cubic-inch wiring compartment
- Dimmable to less than 10% with compatible leading edge (TRIAC) and trailing edge (ELV) dimmers
- Non-conductive dead-front trim design suitable for a wide range of applications and codes requiring a non-conductive lens assembly
- Average Rated Life: L70 at 50,000 hours

4" Wafer LED Downlight

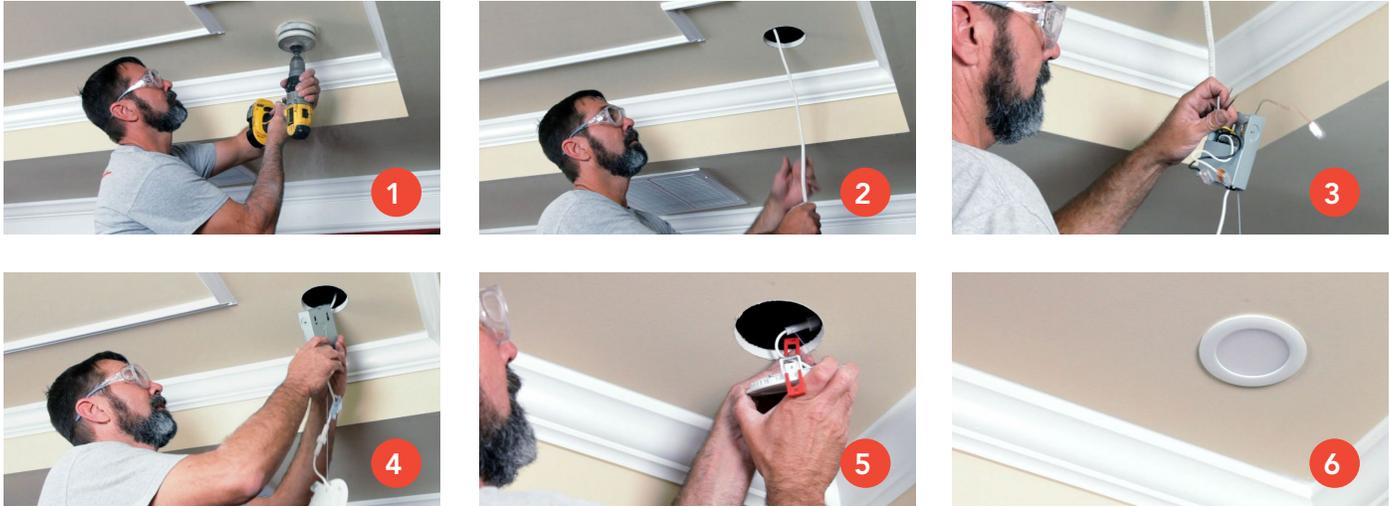

6" Wafer LED Downlight

Wafer™ LED Recessed Downlight

The ultra-thin Wafer LED redefines recessed downlighting installations. With the narrow design and remote driver box, the Wafer LED can be installed in confined, hard to reach spaces such as closets, bathrooms, hallways, stairwells and outside soffits. These and other areas with shallow plenum often make it impossible to install traditional recessed housings.

Make installation quick and simple with the Wafer LED series.
