

WOHNER FUSE HOLDERS

Class CC & Midget

Class J 30A/60A

Class J 100A-400A

30A /600VAC

wöhner

Wöhner Class CC and Midget fuseholders are compact DIN rail mountable fuseholders available in a variety of configurations and options. They offer enhanced specifications and features.

Ganging kit for 2 or 3 Pole units

Technical Specifications

Fuse Types:	Class CC & Midget
Voltage Rating:	600V (CSA/UL) 690V (IEC) 1000VDC - Solar
Ampere Rating:	30A.
LED Indication-Std:	110-600VAC/DC
LED Indication-LV:	12 - 72VAC/DC
SCCR:	Class CC - 200kA Midget - 50kA with KLK fuse
Terminal Style:	Box Connector
Wire size:	1 wire #18-#4 AWG or 2 wires #18-#6 AWG (must be stranded and same size)
Tightening Torque:	18-22 lb/in (2.0 -2.5Nm)
Flammability rating:	UL94
Approvals:	CSA C22.2 no. 39 (file 110285) UL512 (file E230163)

Features and Benefits

- Accepts all standard CC and Midget fuses
- 1000VDC version available
- Larger wire capacity
- Non-Indicating and Indicating versions available
- Easy installation and removal of fuses
- Mounts on standard 35mm DIN rail
- Smooth Cam action
- Ventilated for cooler operation
- Insensitive to DC polarity
- Optional low voltage indicator works down to 12V
- Ganging kits available to assemble 2 and 3P
- Wide range of accessories

No. of Poles	Part No. for Class CC		Part No. for Midget		VAC	Accessories for both Class CC & Midget

Technical Specifications

Voltage Rating:	600VAC
Interrupting Rating:	200kA
Amp Rating:	30A and 60Amp versions
Terminal Type:	Box Terminal
Wire Range 30A:	1 wire - AWG 18 - 1/0. Class B Md 3,5 - 4,0Nm / 31 - 35lb/in. 2 wire (identical cross sections) AWG18 - AWG8 , Class B Md 3,5 - 4,0 Nm / 31 - 35 lb/in.
Wire Range 60A:	1 wire AWG14 - 1/0, Class B Md 3,5 - 4,0 Nm / 31 - 35lb/in. 2 wire (identical cross sections) AWG10 - AWG6, Class B Md 3,5 - 4,0 Nm / 31 -35lb/in.
Material:	Thermo-plastic
Self-extinguishing:	In acc. to UL 94
Approvals:	CSA (110285) UL (E230163) Approved for feeder circuits to UL508

Features and Benefits

- Meets Dead Front requirements
- Larger cable capacity
- Non-Indicating and Indicating versions available
- Easy installation and removal of fuses
- Mountable on 35mm DIN rail
- Smooth Cam action
- Ventilated for cooler operation
- Compact design

This finger safe cover is included with each holder.

Protective sleeve on cover must be removed prior to installation

Technical Specifications

Voltage Rating:	600VAC
Interrupting Rating:	200kA
Amp Rating:	100A, 200A & 400A versions
Poles:	3 Pole only
Wire Range 100A:	AWG10 2/0
Torque:	125 - 142 lb/in.
Terminal Type:	Tunnel terminal with hole 12,5mm diameter
Wire Range 200A:	AWG8 - 300MCM.
Torque:	142 - 160 lb/in.
Terminal Type:	Tunnel terminal with hole 17mm diameter
Wire Range 400A:	AWG4 - 600MCM.
Torque:	336 - 355 lb/in.
Terminal Type:	Tunnel terminal with hole 23mm diameter
Cover:	Included. Clear lexan
Material:	Thermo-plastic
Self-extinguishing:	In acc. to UL 94
Approvals:	CSA (110285) UL (E230163) Approved for feeder circuits to UL508

Features and Benefits

- Meets Dead Front requirements
- Larger conductor cross section can be connected
- Easy installation and removal of fuses
- Ventilated for cooler operation
- Accepts standard Class J fuses
- Fuse indicator (if used) visible through cover
