

T8 LED - DEL

T8 - LED for Non-Ballasted Fixtures

Product codes

LED-T8-48-20W-40K : 4000K

This replacement LED T8 TUBE is offered with a built-in driver. It is the same T8 bulb offered in our SHOP LIGHT. SL2-LED48-40K-WH

This unit is also well adapted to be installed in other T8 style lighting units, however those units must NOT have ballasts installed. In other words, these LED T8 tubes require 120 volt directly to the sockets.

The shatter proof coated glass tube provides improved durability, safety, and heat dissipation.

Not for use with dimmers.

The tube has a life span of 25,000 hours, 20 watts, 2000 lumens, 4000k color temperature and carry a 5 year limited warranty.
