

ORDERING INFORMATION

Order code: 63654
 Description: LED/DL6/12.5W/30K/RETRO/BLK/STD
 UPC: 69549636545
 Case quantity: 16

PERFORMANCE DATA

Shape:	Round
Size and type:	Downlight 6"
Finish colour:	Black
Wattage (W):	12.5
Lamp voltage (VAC):	120
Base:	E26
Beam angle:	113°
THD:	<20%
Power factor:	0.99
CBCP:	281.2
CRI:	84
Color temperature (K)**:	3 000
Initial lumen (lm)*:	809
Initial lumen per watt (lm/W):	65
Operating temperature range:	- 20 °C / - 4 °F to 45 °C / 113 °F
Minimum jbox required:	1 1/2"

*Initial lumens range: +/- 5 %

**Typical colour temperature range: +/- 5 %

MOL: 1 31/32 in. (50 mm) Dia.: 7 3/32 in. (180 mm)

COMPATIBLE DIMMER LIST

Brand: Model
Legrand: HCL453P
Cooper: DAL06P, SAL06P, SLC03P
Leviton: IPL06, 6674, DSM10-1LZ
Lutron: DVCL-153P, CTCL-153P, AYCL-253P, DVCL-253P, DVELV-300P, SELV-300P, NTELV-600

NOTE: The above table shows dimmers that have been tested and have demonstrated proper operation under normal conditions. Each installation being unique, various factors such as load, common neutrals or other electrical products on the circuit can, in certain instances, cause variance in system performance. Read and comply to the dimmer installation instructions. Consult dimming system manufacturer for additional support in operation. Standard recommends to use dimmers designed to work with LED products. Older dimmers designed for incandescent lamps may cause erratic operation. Do not mix products of different wattages or types on the same dimming circuit. Some dimmers may require more than one product for stable operation. See number in bracket besides each dimmer, when applicable. The maximum number of products is determined by the dimmer wattage rating with LEDs. Be careful, these dimmers have different ratings depending on the product type. Again, refer to the dimmer installation instructions. For example, if the dimmer rating is 150W with LED, a user may use up to fifteen (15) 10 W dimmlight.
