

LED PL Lamps

LED PL lamps are the ideal solution to replace plug-in compact fluorescent lamps and are just as easy to install. These LED lamps are available in 2-pin and 4-pin, as well as in horizontal and vertical models. They are perfect for use in commercial buildings, hotels and offices by providing an eco-friendly and cost saving alternative to any ceiling fixture, recessed can, downlight and sconce.

- No start-up time required compared to traditional fluorescent lamps.
- No mercury content
- G24q base 13W lamps are ballast compatible with electronic ballasts only
- 6 W lamps with GX23 and G24q bases and 11 W lamps with G24d base are ballast compatible with magnetic ballasts only or ballast bypass
