## ROCKER & TOGGLE SWITCH ACCESSORIES

### Switch Guard

#### 35-1710B, Flip Cover Switch Guard

Provides the maximum protection, and can be easily added to an already installed switch by unscrewing and replacing the facenut. Spring-loaded snap action cover returns the switch to the 'safe' position when closed, and secures it there. Rugged red melamine cover is colorfast at temperature extremes and is resistant to most contaminants, like fuel oil. Recommended for use with standard 11/16" toggle handle Off-On or On-On switches with a keyway in the bushing. Steel faceplate with black glossy finish. Height closed 1.08"; height open 1.71". 1.80" long x .67" wide. Mounting hole diameter .47". Accepts switches with standard 15/32" diameter mounting stems.

With cover up.

With cover closed.

### Handle Extensions

Rigid plastic extension snaps over standard or ball handled toggle switches, extending a standard handle to 1-7/8" long. Enables switches to be easily color-coded. Packed 10 of each color per package.

81271, Red  
81272, Yellow  
81273, Black
