

RoHS Compliance

RoHS COMPLIANCE

The RoHS (Restriction of Hazardous Substances) Directive 2002/95/EC dated 27th January 2003 addresses the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Producers of certain categories of electrical and electronic equipment cannot use high levels of the following six banned substances:

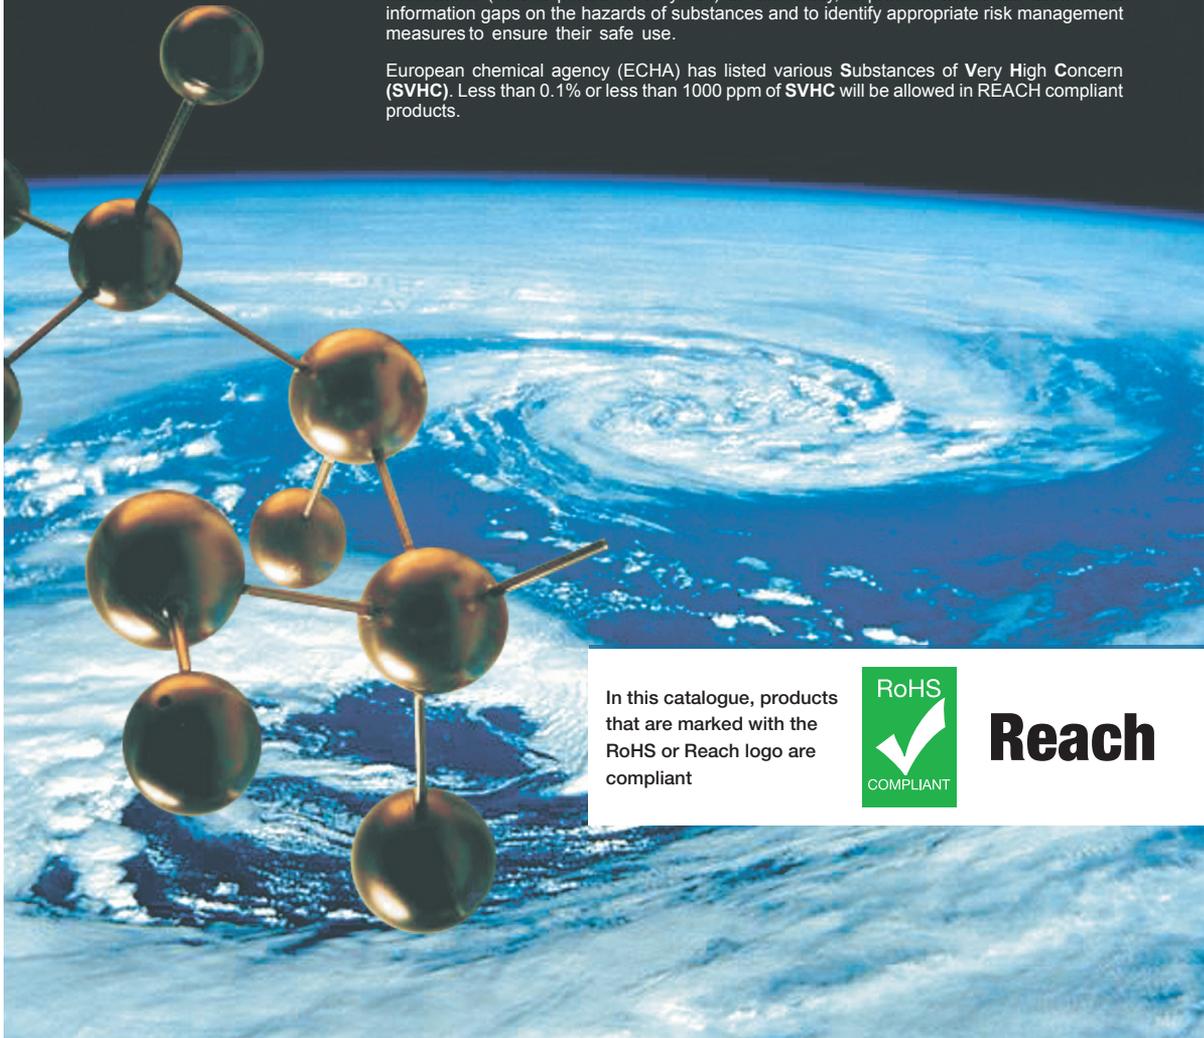

Lead (Pb)	Hexavalent chromium (Cr-VI)
Mercury (Hg)	Cadmium (Cd)
Polybrominated biphenyls (PBB) [flame retardant]	Polybrominated diphenyl ether (PBDE) [flame retardant]

REACH COMPLIANCE

REACH is the regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18, concerning the Registration, Evaluation, Authorization and Restriction of Chemicals.

Implemented on 1st June 2007, **REACH** requires the registration of some 30000 chemical substances (over a period of 11 years) in use today, a process which will allow to fill information gaps on the hazards of substances and to identify appropriate risk management measures to ensure their safe use.

European chemical agency (ECHA) has listed various **Substances of Very High Concern (SVHC)**. Less than 0.1% or less than 1000 ppm of **SVHC** will be allowed in REACH compliant products.

In this catalogue, products that are marked with the RoHS or Reach logo are compliant
