Article number:	Belt B 1	Country of origin:	TW
		Customs tariff number:	82042000

- 10-piece socket set on a robust textile belt, 1/4"
- Sockets with holding function for screws/bolts/nuts
- Smooth Twist to Unlock mechanism for a secure fit and simple removal of the sockets
- Take it easy tool finder with colour coding according to sizes
- Suitable for attachment to a wall, shelf, tool trolley and to the Wera 2go System

Typically Wera designed robust textile belt with 9 sockets taking up minimal space. A smooth Twist to Unlock mechanism ensures a secure fit and simple removal of the sockets. Comes with "Take it easy" Tool Finder with colour coding according to size to enable the right tool to be selected easily and quickly. Includes a snap hook for secure fastening to a belt loop or pocket. Sockets with holding function for particularly convenient screwdriving with reduced risk of losing the screw when approaching the workpiece. Supplied with a non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system.

Wera Belts

Whoever would have thought that the storage of sockets could be completely revolutionised and that someone could come up with a stylish belt with securely attached sockets that can still be easily removed.

Sockets with retaining function for hexagon headed bolts, screws and nuts

The clamping of the screw is achieved by a twin spring loaded ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

Manual and machine sockets

The manual and machine sockets can be used both for hand and power tools use (non-impact). Users need just one socket set for all applications.

Nut extractor tool

This tool enables hexagon nuts to be easily removed from sockets with holding function.

"Take it easy" tool finder system

"Take it easy" tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklus bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklus sockets and Zyklus bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklus bit sockets).

Secure hold and easy removal

The all new smooth turning mechanism guarantees both secure and rattle-free storage, yet allows easy removal of the tool.

Practical nonwoven strips

The textile belt can be attached by means of the nonwoven reverse side and the hook and loop strips e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system.

Comes with convenient snap hook

The robust textile belt can be secured to a belt loop or pocket by means of the snap hook.
