

EAN:	4013288194794	Size:	250x205x50 mm
Part number:	05030181001	Weight:	320 g
Article number:	2050/6	Country of origin:	CZ
		Customs tariff number:	82054000

- The fast-turning zone just below the rotating cap allows rapid twisting.
- The Wera Black Point tip offers an exact fit and optimum corrosion protection
- Multi-component Kraftform Micro handles for fast and ergonomic screwdriving
- Includes practical rack for tidy storage of the screwdrivers
- Indispensable for many users, including electronics technicians, opticians, precision engineers, jewellers, EDP hardware fitters and model-makers.

High quality Wera Micro screwdriver set for precision mechanical work. Rapid twisting is possible by fixing the hand on the twist cap and using the fast-turning zone just below it. This makes time-consuming grip adjustments unnecessary. Power zone with integrated soft zones ensure the transfer of higher tightening and loosening torque. Precision zone for the right angle for adjustment work. The Wera Black Point tip offers high corrosion protection and an exact fit. Includes practical rack for tidy storage of the screwdrivers.

Set contents:

2050 PH Micro

05345290001^{1),2)} 1 x PH 000 x 40 mm

05118019001^{1),2)} 1 x PH 00 x 40 mm

05118026001³⁾ 1 x PH 0 x 40 mm

1) Optimised for Asian PH screws

2) On the output side, the blade is turned to a nominal length of 10 mm.

3) Size 0 modified according to JCS 0 (Japanese Camera Industrial Standard)

Kraftform Micro Handle

Screwdriving jobs in electrical and precision engineering applications are often tedious and time-consuming. We learned from users what is important for them: working speeds, torque, precision – and we then focused particularly on these issues.

Multi-component screwdriver handle for ergonomic working.

The refined screwdriver for electronics technicians

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

The precision zone

The precision zone directly above the blade gives the user a better feel for the right rotation angle during fine adjustment work.

The power zone

The power zone has integrated soft zones near the blade tip to ensure high torque transfer for loosening or tightening screws without losing contact with the screw.

The fast-turning zone

The fast-turning zone just below the rotating cap allows rapid twisting.

Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.

Applications

Indispensable for many users, including electronics technicians, opticians, precision engineers, jewellers, EDP hardware fitters and model-makers.
