- Retractable bayonet blade
- Rapidaptor technology for rapid bit change
- Kraftform handle with anti-roll feature
- Multi-component Kraftform handle for ergonomic screwdriving
- Integrated magazine for bit storage

Wera compact tool: suitable for bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3 and E 6.3 and Wera connecting series 1 and 4. Comes with an adaptor, bayonet and Rapidaptor technology. Kraftform handle with anti-roll feature, multi-component for particularly ergonomic screwdriving. Integrated magazine for bit storage. The telescopic bayonet blade, which can be lowered into the handle, together with the quick-release chuck allows fast manual work even in confined installation situations when the blade is retracted. The blade can be extended by simply actuating the locking sleeve. The bayonet holder can then be used as a fully-fledged screwdriver. The bayonet blade can be removed and used as a power tool adaptor, but can also be retracted once again to its original position.
