

EAN:	4013288207517	Size:	145x95x30 mm
Part number:	05133164001	Weight:	431 g
Article number:	950/9 Hex-Plus Multicolour 2	Country of origin:	CZ
		Customs tariff number:	82054000

- L-keys for hexagonal socket screws
- Hex-Plus allows socket head screws to live longer
- L-keys are quickly to hand thanks to their size markings
- Wear-resistant size marking
- Wear-resistant clip material for enhanced durability

High quality set of L-keys for hexagonal socket screws in a practical clip made of wear-free material for lasting secure retention of the L-keys, with easy removal when required. Hex-Plus L-keys provide larger contact surfaces on the screw head. The notching effect is thereby reduced to a minimum; the destruction of the screw head is almost eliminated. The ball on the long arm allows safe working even in difficult mounting positions. The BlackLaser surface treatment provides excellent surface protection, corrosion resistance and long life. Laser coated abrasion-resistant size markings on the L-keys for quick access.

L-keys with a thermoplastic sleeve

L-keys made from circular material fit into the hand better and allow less strenuous work over a longer period. Additionally, the rubber sleeve provides a pleasant grip, particularly in applications at low temperatures. Colour coding and large stamp enable the desired L-key to be easily located. Moreover, the round material keys are more robust, particularly where smaller sizes are concerned.

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Ball tip

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, "around-the-corner" screwdriving jobs.

"Take it easy" tool finder system

"Take it easy" tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).

Secure hold and easy removal

The wear-resistant clip material ensures that the L-keys are securely held yet are easy to remove.
