

Wera 2go E 1 Tool set for electricians, 73 pieces

Our Autumn/Winter production innovations

EAN: 4013288221278
Part number: 05134025001
Article number: Wera 2go E 1

Size: 370x345x140 mm
Weight: 7300 g
Country of origin: CZ
Customs tariff number: 82060000

- Extensive 73-piece tool set in the compact Wera 2go 2 tool container for electricians in mobile operations
- Premium brand tools by Wera, Jung, KNIPEX®, Lyra®, PICARD®, PUK® and Stabila®
- Wera Kraftform Kompakt Turbo i 1 (16-piece handle/interchangeable blades VDE set) for four times the screwdriving speed and Wera 8100 SA 6 Zyklop Speed ratchet set (1/4", 28-piece set)
- Joker 6004 S self-setting spanner for bolts and screws of 10-13mm (metric) and 7/16"-1/2" (imperial)
- With chiseldriver for screwdriving, chiselling, mortising as well as 4 VDE screwdrivers - 2 of which with stainless steel blade to prevent extraneous rust

Compact tool set with the 73 most important tools for electricians with products by Wera, Jung, KNIPEX®, Lyra®, PICARD®, PUK® and Stabila®. Mobility is made considerably easier thanks to the compact tool container from the Wera 2go system.

Jung Malerspachtel mit Naturholzheft, 922 050 00

1 x Jung Scraping knife with natural wood handle, 922 050 00

Fast movers

The Zyklop Speed ratchets are really fast movers. The gyrating mass design means that screwdriving is accelerated. The rotation-symmetric structure of the Kraftform handle and the free-turning sleeve reinforce this rapid twisting process, particularly when the ratchet does not engage due to too little resistance in the thread.

Joker 6004: Automatically and continuously self-setting

With its automatically and continuously gripping parallel jaws the Joker spanner 6004 covers all dimensions in the respective field of application. The tool automatically finds the required size when placed on the bolt or screw, no setting required.

Joker 6004: Small return angle

Thanks to the corner-width rectangular prisms, a return angle of only 30° can be realized.

Joker 6004: Ratchet mechanism for fast work

The ratchet function in the mouth sees to fast and consistent screwdriving without removing the tool.

Wera Stainless Steel Tools.

Solution to the rust problem: screw stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Kraftform Kompakt Turbo VDE

Many users would like to be able to carry out screwdriving processes faster without compromise. With a screwdriver that is precise, allows powerful screwdriving, and is much faster than a conventional screwdriver. A part-time universal gear is the solution: Integrated in the screwdriver handle, it quadruples the working speed with smooth couplings - purely mechanically. One hand holds the front part of the handle, the other hand turns the rear part of the handle. The turbo function can be switched on or off at the push of a button. Turning it off is recommended for tightening and loosening with high torque, e.g. for screw connections in wood, as well as for fine adjustments. Robust, maintenance-free gear made of steel with a maximum torque of 14Nm when the turbo function is deactivated. With the Wera VDE interchangeable blades individually tested as per IEC 60900, the VDE version of the Kraftform Turbo hand holder 827 T i guarantees fast and safe working even in live environments (up to 1,000 volts).

L-keys with retaining function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw on the tool.
