BATHTUBS AND SHOWERS

STRONG, SLEEK, DEPENDABLE & BUILT TO LAST

GELCOAT BATHTUBS & SHOWERS

PRODUCT CATALOGUE & PRICE LIST
SUMMER 2019

MISSION STATEMENT

To manufacture top quality fibreglass bathware products that surpass customer expectations and provide homeowners with durability, beauty and value that will last a LIFETIME.

100% Canadian for over 30 years!

ALTREK'S STORY

Since 1986

Altrek Industries is a family-owned and operated fibreglass bathtub and shower manufacturer in Okotoks, Alberta, Canada. Our bathtubs and showers are made with a gelcoat surface and reinforced with heavy-duty fibreglass, providing a sanitary, uninterrupted, smooth surface. Additional reinforcing and contouring provides our products with supplementary strength and durability. Only the highest quality materials are used in the manufacturing of our products.

One of Altrek's highest priorities is our customer service. We strive to maintain optimal relations with our clients and we offer them a personalized experience. We wouldn't be where we are today without our loyal customers and their referrals.

We pride ourselves on the efficiency of our manufacturing department due to our highly skilled fibreglass technicians. Products are able to go through the entire production line and be ready to be shipped within a couple of days. Altrek products are distributed throughout Alberta, Saskatchewan, Manitoba, and Eastern British Columbia by our plumbing wholesalers.

Innovation is our goal in this ever-evolving marketplace. We are continually expanding our product-line to meet the diverse and ever-expanding needs of our customers. Currently, our product offering consists of over 70 gelcoat fibreglass models of tub and wall units, skirted tubs, drop-in tubs, corner bathtubs, jetted tubs, showers, shower bases, shower roof caps, and barrier-free showers. You are sure to find the perfect product to fit your needs.

Terms

2% - 15th of the month following – net 30 days. Prices do not include GST.

Projects

Special Project pricing is available upon request. Please contact our Sales Manager.

Shipping Policy

Altrek will prepay shipping within Calgary city limits for orders of twelve (12) items or more. For orders of twenty (20) items or more, we will prepay outside Calgary city limits. Orders shipping north of Edmonton will have to be quoted. Please contact our Sales Manager.

Return Policy

Returns are subject to a 30% restocking charge and inspection. They must be shipped prepaid to Altrek Industries. Special orders, colours, jetted items and products over 6 MONTHS OLD are not eligible for credit. Debit Notes are not to be issued by clients without Altrek's authorization and Altrek has provided the exact dollar value of the refund.

Custom Color Policy

Our standard color is white. Bone, biscuit and linen are an additional cost. Colors have been matched to fixture manufacturer's standards. However, we will not assume responsibility for the degree of accuracy, as light and type of finish may vary. Our end product is a durable, high-gloss gelcoat finish.

Repair & Warranty Policy

It is our mission to provide our wholesalers and customers with the highest quality of products, making it critical that we are made aware of any shortcomings in our products so we may adjust our manufacturing process, if it is so required, and so we can ensure that the repairs are completed with the highest quality. Altrek does not cover repair charges if the repairs are not completed or approved by Altrek. For repair and warranty work, send in a copy of the invoice and a complete description of the issue.

Limited Warranty

All Altrek products are subject to an industry competitive limited warranty. Altrek Industries Ltd. offers a five (5) year warranty from date of sale to the original owner on our products. This warranty does not cover materials and component parts manufactured by others (such as pumps, jets, pipes and fittings), which are subject to warranties offered by their original manufacturers. Altrek Industries Ltd. warrants to the purchaser that each Altrek product will be at anytime of sale, free from defect in material and workmanship.

Under no circumstances will Altrek Industries Ltd. assume liability for consequential damages or labor charges resulting there from. This warranty is non-transferable and shall be void if the unit is removed from its place of initial installation or is not installed in accordance with the manufacturer's instructions. Further, this warranty does not apply if the unit has been subject to an accident, abuse, misuse, damage caused by flood, fire, or act of God, or if the unit or the plumbing fixtures used in connection with it are not installed in compliance with local codes. Any modifications or alterations to a unit, without prior authorization from Altrek Industries Ltd. or the installation of therapy jets by anyone other than Altrek, will void all warranties.

Altrek cannot assume responsibility for code compliance in your specific region. Please check specifications and other information with the appropriate authorities before ordering. Altrek reserves the right to discontinue or make changes to product dimensions at any time.

Plumbing Info

Products will not require special fittings. Most makes of tub and shower faucets are compatible. Extended waste and overflows may be required on certain bathtubs. All tubs are predrilled for 2" drains and 2½" overflows. All shower stalls and bases are predrilled for 3¼" drains.

OUR NEW SUMMER PRODUCT LAUNCH

AF-CHINOOK L/R

The AF-Chinook is our newest tub with walls. It has a sleek and modern design making it a perfect selection for builder to separate themselves from the competition. The AF-Chinook offers ample room for your bath & shower essentials with the addition of extra shelves and soap ledges.

For more details, see page 17.

AS-PRINCESS ED 4PC

Our popular Princess shower is now available as a 4 piece split unit making it even easier to get the shower into tight spaces. This unit comes with a full length 3 1/2" soap ledge on the back wall for ample room for all your shower essentials.

For more details, see page 27.

AS-6032 ED 4PC L/R

Our new AS-6032 ED (end drain) 4 piece shower is the ideal renovator unit for replacing that old tub. This unit also comes with a full length 3 1/2" soap ledge on the back wall for ample room for all your shower essentials.

For more details, see page 27.

SPLITS AND KNOCKDOWNS

Altrek's SPLIT models are ideal for renovations and basement developments. Our industry leading design makes Altrek's split/knockdown units a great choice for today's renovation contractors.

The split unit comes as two separate pieces. Each piece of an Altrek split unit is engineered and created from a separate mold. This ensures that both pieces will fit together and provide smooth, sleek lines for a clean looking finish. It is recommended that a bead of silicone is applied between the two seams prior to being bolted together in order to achieve a perfect leak-proof seal.

With Altrek, you can be assured that each tub and shower is handmade and inspected before it leaves our factory, to guarantee the highest quality product for installation every time.

STRONG, SLEEK, DEPENDABLE & BUILT TO LAST

What's in a Name?

Our products are more than just comforting because our products are backed the Altrek name. Altrek is a company with over 30 years of experience with a reputation of customer service excellence. It's all in our name!

The Basic Principle

Each bath is a non-conductive, non-corrosive, fully-integrated system. Every part is specifically designed and engineered for its function within that system. We control every step of the manufacturing process so you can have complete confidence in the end result. Every Altrek whirlpool system is designed for the ultimate in whirlpool bathing. That includes the contours of the bath, and the position, installation and design of jets.

Our jets are fully adjustable. You can control the pressure of the incoming water and select the jet direction you prefer. And with our air control, you may adjust the mixture of air and water. Your massage can be soothing, stimulating and anywhere in between.

The Secret

You get a unique massage from the whirlpool inlets. The secret is in the venturi design. Air is drawn into the venturi chamber, where it is mixed evenly with the water. This mixture is forced through the inlets and rushed into your bath in a broad spiral pattern. What you feel is thousands of bubbles bouncing and bursting against your skin. Pure pleasure!

Standard Whirlpool Jetting

Includes:

- 2 Silent Air controls
- Ultra-Quiet $\frac{3}{4}$ HP motor
- 4, 6 or 8 Jet Systems
- Color-matching jet fittings
- On/off Air Switch

Note: Jetting is a custom option and all orders take approximately one (1) week to complete. Please provide details in writing on the location of all jets.

The Ultra Air System

Available on all drop-in tubs and select skirted tubs. Hydrotherapy enters a whole new era with the unique Ultra Air System. Engineered with hygiene as a first priority, this self-draining air injected bubbler system provides maximum therapeutic benefits, while maintaining an atmosphere of absolute cleanliness. The Air System provides you with a gentle, overall massage. The massage effect is obtained by injecting warm air through the air jets and into the bathwater.

Features:

- 1 HP hot air blower
- Self-draining air jets (1/8" flush holes on the bottom of the tub: no jets are visible.)
- Electronic touch pad control to adjust speed and pulsation: 3 settings.
