

## Performance

|                             |                                   |
|-----------------------------|-----------------------------------|
| <b>Magnetic performance</b> | 4,000 Gauss                       |
|                             | Patented Micromag style core      |
| <b>Volume</b>               | 0.13 gal (500 ml)                 |
| <b>Pressure</b>             | 43 psi (3 Bar) operating pressure |
| <b>Flow rate</b>            | 14 gpm (3 m³/h)                   |
| <b>Collection Capacity</b>  | 0.9 lbs (400 g)                   |
| <b>Temperature</b>          | 212°F (100°C)                     |

## Construction

|                        |   |
|------------------------|---|
| <b>Magnet material</b> | Rare Earth Neodymium Iron Boron             |
| <b>Mesh filter</b>     | 0.5mm, quick release mesh (for cleaning)    |
| <b>Valves</b>          | 1" NPT (1.25" NPT adaptors included in kit) |

**Includes** Additional Automatic Air Vent that has been packaged along with unit separately. The auto-vent will automatically release the trapped air maintaining heating efficiency.

**Warranty** Industry leading 3 years

## Its all in the box....

All you need to fit and service BoilerMag is contained in a simple retail friendly off-the-shelf package.

- BoilerMag filter unit
- 2 x 1" NPT valves
- 2 x 1.25" NPT adaptors
- Automatic air vent
- Spare o-rings
- Bowl spanner/cleaning tool
- Product guide
- Drain valve spanner
- Boiler sticker
- Pipe cut template

For larger applications, try our commercial and industrial ranges:

**BoilerMag XL**  
(filter to suit 1½" pipe)

**BoilerMag XT**  
(filter to suit 2"-12" pipes)

**BoilerMag North America**  
442 Millen Road Unit #9, Stoney Creek, Ontario, L8E 6H2

V3

A world leader in magnetic technology

# The Ultimate Filtration Solution BM/R

- Fast, easy install
- Dual flow technology™
- Premier performance
- Patented magnetic circuit
- Extracts both magnetic and non-magnetic debris

**BOILERMAG**  
**3 YEAR**  
**WARRANTY**

A world leader in magnetic technology

# High Performance Air, Dirt, and Magnetite Separator

Combining high performance with ease of installation and servicing, BoilerMag uses tried and tested patented magnetic technology to remove virtually 100% of magnetite (sludge) and scale on the first pass through the filter.

Featuring "Dual Flow" technology it is the perfect choice for residential installations.

1" NPT threaded valves (1.25" NPT adaptors included)

Install/Clean in minutes, protect for years

Any direction install (pipework or filter)

High performance dirt removal

Includes Automatic Air Vent

Easy "in-line" installation

No block feature

## \*Best value option

Why go through the trouble of purchasing separate boiler filter components when BoilerMag, The Ultimate Filtration Solution, offers all necessary components in one package?

## Getting to Know Your BoilerMag

BoilerMag is designed for performance and practicality. The illustration below highlights the key features for installers, service contractors, and property holders.

- 1 Simple flush access point - flush attachment available separately
- 2 Air vent/chemical dosing point
- 3 360° Adjustment - allows installation at any angle either pipework or filter
- 4 Requires minimal access space - unit does not have to be fully removed from pipework
- 5 High quality isolation valves included
- 6 Easy "In-Line" installation
- 7 No block mesh guard - removes scale and other non-magnetic debris
- 8 Patented magnetic circuit - ensures system cannot block
- 9 Patented magnetic core - large magnetic surface area
- 10 Dual flow technology - maximizes dirt collection performance by ensuring that magnetite is exposed to the magnetic zone for longer
