

“BLAST”

A germicidal de-limer, toilet bowl and urinal opener. Cleans and removes lime, rust and scale.

Applications: Toilet bowls and urinals

Directions / Dilutions: Apply “Blast” to swab and brush under rim of toilet bowl until clean and rinse with plenty of water. For drain descaling, pour directly in drain and let stand for 30 minutes and rinse with plenty of water. Do not use on chrome, stainless steel or any other metals. Contains hydrochloric acid.

Laboratory Analysis:

Appearance: Brownish colour
Flammability: Non flammable
Solubility: Water soluble
Freezing Point: -20°C

Packaging: 12 x 909 mL containers
