

“CHEM-CUT”

A specially designed cutting oil. Immediately reduces surface tension on ferrous and non-ferrous metals. Designed to give a more precise cut by lubricating the tool to prevent it from sticking.

Applications: Cutting and threading of pipe, machine shops, die plants and anywhere a high quality cutting oil is needed.

Directions/Dilutions: Use as is. Simply apply “Chem-Cut” to surface being worked and reapply as needed.

Laboratory Analysis:

Appearance:	Clear to pale yellow liquid
Corrosion:	Non-corrosive
Toxicity:	Non-toxic
Solubility:	Non-soluble

Packaging: 12 x 909 mL bottles
4 x 4 Litre container
