Steam Humidifier

Elite Series Steam Humidifiers
Residential Whole-House (GFI #5528, 5524, 5527)

Breathe Healthier

Control Indoor Humidity.

Installing a GeneralAire® Whole House Humidifier can reduce allergy and asthma symptoms, minimize risk of infection, protect valuables (such as furniture, woodwork and musical instruments) and save you money.

How The DS (Duct Steam) Elite Steam Series Works:

Your steam humidifier passes electric current between electrodes inside the unit's cylinder, heating the water within to create steam. The steam is then dispersed throughout your home for healthier, more comfortable air.

Maintenance

When you see an "E6 Cylinder Exhausted" message (approximately once per year), it is time to replace the steam cylinder. ***(For your safety and the longevity of your steam humidifier, all maintenance and repairs should be performed by a licensed contractor.)***

Install A Humidifier In Your Home To:

Protect Your Family's Health:

Low humidity is where viruses can thrive and cause your throat and nasal passages to dry. This leads to nose bleeds, increased risk of infection, colds, flu and other respiratory ailments. Dry air can trigger asthma and allergy symptoms. Air that's too dry causes dry/itchy/cracked skin.

Protect Your Valuables:

Dry air in your home can cause expensive artwork, wood flooring, cabinets, furniture and musical instruments to crack. Dry air increases annoying static shocks that can damage electronics.

Save Money:

Since dry air can cause woodwork to crack, resulting gaps in windows & doors let cold outside air in. And, dry air feels colder. Take the chill out. Turn your thermostat down and save money.

Why A Whole-House Unit?

- Treats Your Whole House 24 / 7 / 365
- Requires Minimal Maintenance
- Out of Site
- Quiet

GENERAL FILTERS
INCORPORATED

Elite Series Steam Humidifiers
Residential Whole-House (GFI #5528, 5524, 5527)

GeneralAire® Models DS 15P, 25, 25LC Steam Humidifier

DS (Duct Steam) Models 15P, 25 & 25LC

- Duct Steam Injection.
- Adjustable output range from 20% to 100%.
- Steam humidifiers deliver humidity without requiring heat from your furnace.

Cover

- UL94 HB Rated Plastic for durability and safety.
- Easy to clean.

Inside:

- Built-in drain tempering.
- Extended life cylinder control logic.
- Replaceable steam cylinder.

Controls/User Interface:

- Connect to almost any humidistat of your choice (manual, automatic).
- Alarm relay to home security and home management systems standard.

ON / OFF Switch

Steam Cylinder:

- Electrodes maintain 95% capacity throughout the life of your cylinder.
- Internal control module automatically regulates water levels for proper steam output.

Constant Control Monitoring & Diagnostics

- Ensures your unit is working properly and indicates when maintenance needs to be performed.
- Auto flush with inactivity.

The Benefits of Steam

- Steam humidification is often more effective for larger homes than other types of humidification.
- Steam humidifiers do not require furnace activity in order to produce steam.
- Steam humidification uses less water than other types of humidification.
- Steam humidification is often known as "clean" humidification, as water is heated to a boiling point to provide humidity.

Replacement Cylinders

Replace Annually
