SPECIFICATIONS

100% corrosion proof nylon closet bolts. Product must exceed 1,200 lbs. tensile strength per bolt. Product designed with 14 threads per inch to reduce backing out. Universal application designed to fit into any flange or spacer; the product's thinner base allows product to slide into bolt slots when the flange is flush to floor. Eliminates need for two nuts. Specifically designed to ensure bolts don't fall through. Product used with bolt caps; resists damaging china due to overtightening.
