HydroBloc

HYD-0100 The HBX HydroBloc Stand-Alone Mixing

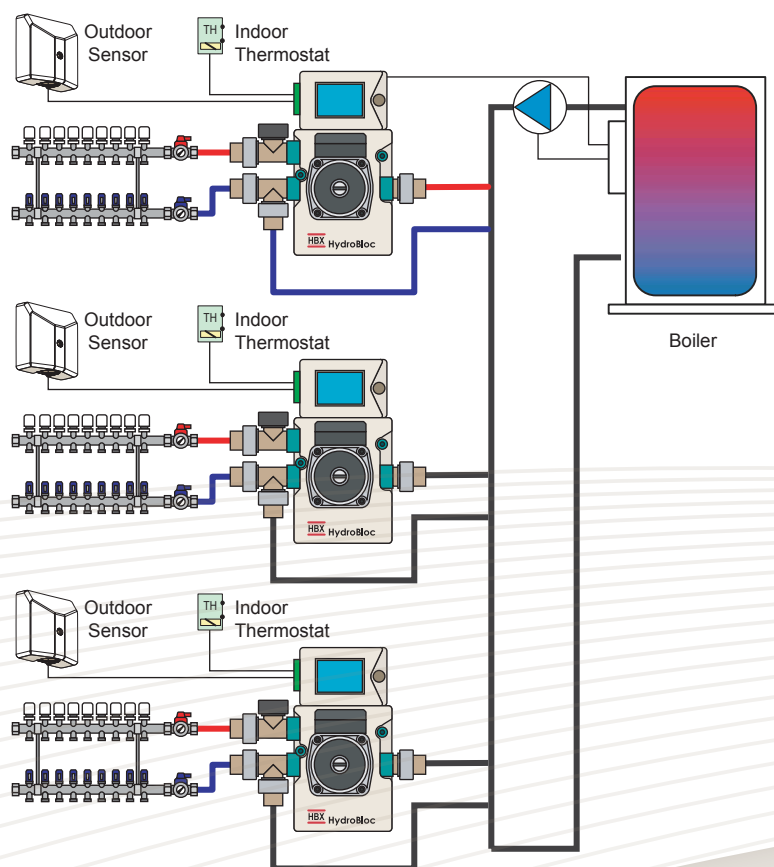

The HBX HYD-0100 HydroBloc is a stand-alone outdoor reset mixing solution. The HydroBloc is specifically designed to operate radiant hydronic heating or cooling zones, as well as having the capacity to operate as an injection device.

The fully inclusive package incorporates previously separate components, creating an affordable, convenient solution that is easy to install and setup.

Features

- Heating or cooling applications
- Innovative hybrid mixing solution
- Single dial programming & operation
- Multicolor backlit display
- Integrated temperature/ pressure sensor
- Fully programmable Hi & Lo temp reset schedules
- Integrated air purge
- Direct fit connections
- Compact design works well in limited space
