

KANEX Concrete Technologies

The next generation of preformed canning sleeves.
Saves you time and money

The KANEX Telescoping Sleeve was created to improve on current methods of providing preformed vertical and horizontal holes in concrete elements such as slabs, walls and beams. It consists of a base sleeve that may be used singly or in conjunction with a telescopic sleeve that is designed to fit over the base sleeve to cover specific applications.

Significantly reduce your labor costs with Kanex.
Our patented system makes your concrete projects easier. Simply Fantastic!

What Does the KANEX System Mean to You?

- Reduced Labor Costs
- Increased Productivity
- Environmentally Friendly
- Designed with Ease of Use in Mind

Our patented telescopic sleeve has created a superior product that is cost effective, recyclable and easy to use for the construction industry across North America. We are dedicated to maintaining the quality of our product, at the same time providing competitive pricing and reliable delivery times.

What our Customers are saying...

"We find the KANEX sleeves with their adjustable extensions make canning much more efficient and convenient... I will use KANEX sleeves on all future jobs." Fred Welsh Ltd.

"The thing about them was the adjustability; if the apprentice made a mistake height wise, it could be fixed in a hurry effortlessly... When it came to remove the sleeves, what a dream! What used to take precious time up on a job, I needed less manpower due to the ease of removal. I would use KANEX sleeves for all my jobs from now on." Lockerbie & Hole Contracting Ltd.

THE KANEX ADVANTAGE

- Quick and Accurate to Install
- Simply Height-Adjustable
- Color Coded Sizes
- Now available 'New Addition' to Line - 10" & 12" sleeves in all sizes
- Easy to Remove
- Universally Applicable
- Fully Recyclable
- Made in Canada & USA

Flexible Solutions for Your Concrete Canning

Easy Installation :-

KANEX Telescopic Sleeves make the concrete spacing process faster. They are easy to install and they're colour coded by size to help you plan and organized your site.

Height Adjustable and Adaptable :-

KANEX Telescopic Sleeves are highly versatile. You can adjust their height for accuracy. Simply extend or lower the sleeves, and with a twist, they lock into position.

Polyurethane Easy Removal :-

KANEX Telescopic Sleeves are manufactured from polyurethane and are designed to resist adhering to concrete. You'll notice how easy they are to remove.
