

OnCloud Room Controller

Smart Room Controller, Wi-Fi, 2.4 GHz Control Devices

* COMPATIBLE WITH ONCLOUD AND/OR WIZ CONNECTED FIXTURES ONLY.

Features

Body

Durable polycarbonate body and included snap-on wall plate.

Performance

The Room Controller provides a maximum output of 600W for OnCloud and/or WiZ Connected devices.

Operation

Features an ON/OFF buttons, CCT and brightness control rockers, and previous/next scene buttons.

Radio Frequency

Certified IEEE 802.11, Wi-Fi 2.4Ghz radio.

Easy Installation

The Room Controller installs just like a regular in-wall switch. Replaces single pole / 3-way switches. Neutral wire required. NO HUB REQUIRED.

WiZ App

The Room Controller is added as an accessory in the WiZ app and communicates directly to the WiZ enabled light fixture (works with iOS and Android) from anywhere. Voice control can also be achieved by integrating the app with most smart speakers. Works with Google Assistant, Siri, Alexa and IFTTT.

Operating Temperature -5°C~45°C (23°F~113°F)

Environment

- Dry locations only.Suitable for indoor use only.

Wiring Diagram

3-Way – Option 1

3-Way – Option 2

* Neutral wire is required.

NOTE: Only the above 3-way wiring configurations are supported. Excluded wiring configurations include power going straight to the load, and no neutral wire going to device boxes.

NOTE 2: Additional Room Controllers may be added in the same room (physically and in app) for additional control locations. Additional Room Controllers do not need to be wired to the circuit, but must be in the same room and have constant power.

Network Topology

TR indicates Traveler wires.
