Production, Operations & Administration Center - NUPI AMERICAS INC. - Early Branch (SC)

**Nupi Americas has its roots in Italy through NUPI S.p.A. and GECO System S.p.A.** – companies both founded **in the early 1970s** – that merged to become NUPIGECO S.p.A. in 2008. In October 2015, NUPIGECO S.p.A., changed its name to NUPI INDUSTRIE ITALIANE S.p.A.

NUPI INDUSTRIE ITALIANE and Nupi Americas together **develop and manufacture piping systems for use in industrial, sanitary (plumbing), HVAC, waterworks, gas and irrigation markets.** Relying on experience and constant growth, our companies have proven to be cutting edge manufacturers, ready to meet the needs of the market while also protecting the environment.

In 1995, following the completion of an extensive Research and Development program, we introduced a new range of **revolutionary piping systems specifically designed for petroleum, chemical and petrochemical applications.** Since then, two special piping systems made of **High Density Polyethylene (HDPE)** have been marketed worldwide: **SMARTFLEX for the downstream and OILTECH for the upstream.**

**ELOFIT is the High Density Polyethylene system of electrofusion fittings and special components for the conveyance of water and gas under pressure.** It is suitable for the conveyance and distribution of drinking water and alimentary fluids, fuel and inert gases and for water treatment plants, centralized instead irrigation and sewage systems, fire protection systems and pipe relining.

**NIRON is a complete Polypropylene pipe and fitting system for the distribution of hot and cold water in plumbing and air conditioning systems,** for the conveyance of drinking water and alimentary fluids, industrial plants and for the transport of compressed air and chemical substances.

The pipes and fittings that compose the NIRON range are manufactured using **Random Copolymer Polypropylene (PP-RCT), a plastic material with a special molecular structure ensuring high mechanical resistance and duration even at high temperatures and pressures.**

Registered Office and Headquarters - Busto Arsizio (VA)

Production Facility - Castel Guelfo di Bologna (BO)

Production Facility - Imola (BO)

Production Facility - Borsano di Busto Arsizio (VA)

More product ranges marketed by Nupi Americas are **ELOPRESS** - a **complete range of PP fittings for the distribution of drinking water and alimentary fluids**. **ELAMID** - a **complete piping system made of Polyamide 12** that satisfies **high performance requirements in gas supply applications** and **SMARTCONDUIT** - designed to contain **electrical and communication cables in high groundwater or hydrocarbon-rich environments**.

Our trademarked systems are real **system solutions**, covering a wide range of applications, reducing costs, avoiding waste and increasing productivity. Thanks to their quality, these products have passed many different tests and have **obtained the most prestigious certificates** and listings, in line with the regulations of the five continents for the construction of water and gas networks and systems for the transport of fuels.

Producing better quality and being cost effective is the goal, which is made easier everyday by new technology.

Our companies are **continuously investing in research and development programs**, while strengthening our production systems operated by a sophisticated technology that guarantees the highest quality of products. Our facilities use modern state-of-the-art computer controlled production equipment and methods that **guarantee products of the highest quality together with continuous quality control systems**.

On these solid foundations NUPI INDUSTRIE ITALIANE and Nupi Americas demonstrate leadership throughout the thermoplastic piping industry.

Our customers can rely on the best quality materials and precise manufacture instead, obtained through completely automated production systems and continuous on-time deliveries, resulting in timely deliveries which allow planning to be done in real time.

**Customer satisfaction is pursued through high quality products and the constant attention to our customers' needs and requirements** and by means of an effective team of people in post-sales service effective and precise technical assistance and intensive training of installers.

**Niron Clima All-Pro™** is a **preinsulated system that is based on our advanced Niron PP-RCT piping systems**. It is the newest addition to the growing range of products from Nupi Americas and Nupi Industrie Italiane.

**State of the Art Products for  
the transport of liquid and  
gaseous fluids using systems  
made of plastic material**

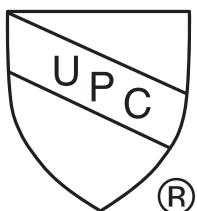

**Sanitary systems

## Our strengths

- Exports established in more than 70 countries on 5 continents
- Worldwide after-sales assistance
- Recognized technical leader in combined material extrusion and pipe fusion technology
- Production of pipes and fittings from 3/8" to 40"
- Training centers established worldwide

## MOLDED REDUCING TEE LONG SPIGOT SDR 11

Material: PP-RCT

Range: 3"x3"x1 1/4"÷10"x10"x8"

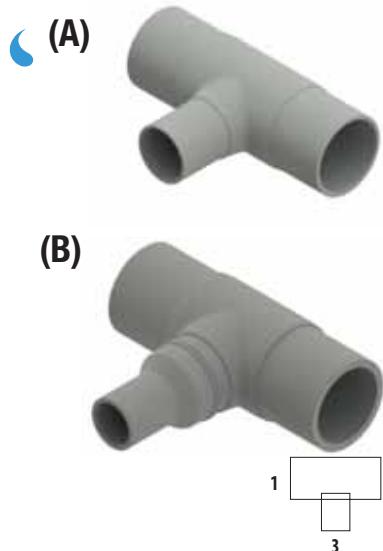

Notes: For butt fusion or electrofusion welding.

Depending on stock availability, the fitting can be supplied molded (monolithic version) or composed (molded tee + reducing spigot).  
Measures on request.

## MOLDED REDUCING TEE LONG SPIGOT SDR 17

Material: PP-RCT

Range: 3"x 3"x 1 1/4" ÷ 10"x 10"x 8"

Notes: For butt fusion or electrofusion welding.

Depending on stock availability, the fitting can be supplied molded (monolithic version) or composed (molded tee + reducing spigot). Measures on request.

## INSTABRANCH™ WELDING SOCKET W/SOCKET FUSION OUTLET

Material: PP-RCT

Range:  $\frac{1}{2}'' \times 1\frac{1}{4}'' \div 4'' \times 24''$

Note: for instabranch parts which are to be welded to an SDR17 pipe diameters of  $3\frac{1}{2}''$  (110mm) and less, the pressure rating of the completed part will be derated to 50% of the standard pressure rating for the SDR17 pipe. This limitation does not apply to pipes that are SDR11 or thicker.

## INSTABRANCH™ WELDING SOCKET W/SOCKET FUSION OUTLET

Material: PP-RCT

Range:  $\frac{1}{2}'' \times 1\frac{1}{4}'' \div 4'' \times 24''$

Note: for instabranch parts which are to be welded to a SDR17 pipe diameters of  $3\frac{1}{2}''$  (110mm) and less, the pressure rating of the completed part will be derated to 50% of the standard pressure rating for the SDR17 pipe. This limitation does not apply to pipes that are SDR11 or thicker.

## INSTABRANCH™ WELDING SOCKETLET W/HEXAGONAL NPT BRASS FEMALE OUTLET

Material: PP-RCT - Brass

Range:  $\frac{1}{2}'' \times 1\frac{1}{4}''$  NPT ÷  $24'' \times 2''$  NPT

Note: for instabranch parts which are to be welded to a SDR17 pipe diameters of  $3\frac{1}{2}''$  (110mm) and less, the pressure rating of the completed part will be derated to 50% of the standard pressure rating for the SDR17 pipe. This limitation does not apply to pipes that are SDR11 or thicker.

## INSTABRANCH™ WELDING SOCKETLET W/HEXAGONAL NPT STAINLESS STEEL FEMALE OUTLET

Material: PP-RCT - Stainless Steel

Range:  $\frac{1}{2}''$  x  $\frac{1}{4}''$  NPT ÷  $24''$  x  $2''$  NPT

Note: for instabranch parts which are to be welded to an SDR17 pipe diameters of  $3\frac{1}{2}''$  (110mm) and less, the pressure rating of the completed part will be derated to 50% of the standard pressure rating for the SDR17 pipe. This limitation does not apply to pipes that are SDR11 or thicker.

## NOTICE

**When using Niron Stub Flanges and Backing Rings to connect to a Butterfly Valve, always consult with the Nupi Technical Department to verify dimensional compatibility. Prior to installing, verify clearance of the Butterfly Vane to insure that the vane will be able to open and close after installation. This should be verified with the vane in the fully open position against the stub flange when it is seated against the valve. It is the responsibility of the installer to verify this prior to installation.**

An aerial photograph of the Reno Element Hotel by Marriott. The building features a distinctive, angular, crystalline facade with a light-colored, textured surface. A prominent feature is a large, illuminated vertical sign on the left side of the building. The surrounding area appears to be a mix of urban and semi-urban development, with other buildings and infrastructure visible in the background.

## ELECTROLET™ HIGH VOLUME BRANCH FITTING (SDR 11) WITH VALVE AND PP-RCT PIPE FOR DRILLING TOOL

Material: PP-RCT

Range: 12"x 6" ÷ 24"x 6"

Note: Item composed by top load electrofusion branch saddle, ball valve and PP-RCT pipe CLIMA 11.

**Weldability notes:** You must scrape the pipe before the welding of the fitting. The perforation of the pipe must be do after the cooling time.

Including testing kit composed by end cap with female outlet instabranch, stud end and free flange.

These components are assembled from subcomponents upon ordering and as a result are non-returnable items.

**PIPING SYSTEM  
FOR UV APPLICATION**

## NIRON UV PIPING SYSTEM

**NIRON Clima Cool-pro** is a pipe produced using PPR material with an outer layer of POLYPROPYLENE duly UV stabilized with a dedicated masterbatch.

This outer layer allows the pipe to be used for outdoor installations where UV protection is not guaranteed or adequate.

### CHARACTERISTICS

**NIRON Clima Cool-pro** is produced in full PP layer or in composite material with addition of our **POWERCORE<sup>TM</sup>** Middle layer.

As the stress-bearing layer is made with PP-R, it has the high, well known and standardized performances of this class of polypropylene (Type 3).

The mechanical and physical properties fully comply with EN ISO 15874 Standard. The pipe is compliant to the main Standards for the conveyance of potable water.

It can be produced in different SDRs (from SDR 11 to SDR 17). The selection of the proper SDR and design is related to the required operating conditions.

The pipe has been designed with the highest safety standards. The UV barrier layer is in addition to the SDR stress-bearing layer of the pipe.

The Nominal Diameter is maintained to facilitate the welding operations.

**NIRON Clima Cool-pro** piping range goes from ø 1" to ø16". Bigger sizes can be provided upon request.

## FITTINGS

**NIRON Clima Cool-pro** fittings are of the electrofusion type and are produced by adding a UV stabilizer masterbatch to the polypropylene base. This allows the full continuity of the UV protection in the installed pipeline. All the parts not chemically protected must be physically protected.

## UV RESISTANCE BEHAVIOR

The performance of the UV protective layer has been evaluated using two main testing protocols:

- Renault Protocol RSA D27 1911D for the UV resistance of the external plastic part for the automotive
- Method for accelerated photo-ageing based on EN16472 by means of a high energy HE mode device

## ADVANTAGES

- **NO CORROSION**  
PP pipes are resistant to all degrees of water hardness as well as to many chemicals.
- **RESISTANCE TO STRAY CURRENTS**  
PP is a very poor electrical conductor, thereby avoiding the risk of perforation of the pipe or fittings caused by stray currents.
- **LOW PRESSURE DROP**  
**NIRON Clima Cool-pro** pipes have reduced pressure losses thanks to their smooth surface.
- **WELDABILITY**  
The use of a full polypropylene material allows the pipes to be easily welded by electrofusion welding.
- **UV RESISTANCE**  
**NIRON Clima Cool-pro** pipes can be used for outdoor installations where UV protection is not guaranteed or adequate.

## SELF AMALGAMATING WHITE TAPE TO PROTECT WELDING BEAD FROM UV

1. Butt weld the pipe with the standard NIRON welding conditions.
2. Remove the bead using the debeader code 00DEBEADER
3. Clean the bead area removing any dust and grease.
4. Stick the tape along the entire circumference, covering the exposed grey PP-RCT area.

## PIPE DRILLING MACHINE FOR WET TAPS

The drilling machine for high volume branch saddles has special sealed chambers to easily drill both pipes conveying gas or water under pressure and sewage pipes.

Thanks to interchangeable cutters (code 00FFxxx) and adapters (code 00FAXxx) it is possible to drill main pipelines from 3" to 40" with service lines from 2" to 6".

The basic machine is composed of:

1. Long shaft to drill under pressure and non-pressured lines
- 1a. Short shaft for non-pressured drilling
2. Body with threaded shaft, vent valve and safety lock
3. Pressure gauge with valve for pressure measuring and depressurizing
4. Ring nut for cutter holding
5. Seeger ring
- Ratchet wrench, milling cutters and adapter are available separately.

## WELDING SYSTEM FOR SADDLE JOINTS

The special fixing system for welding saddle joints 00STL125UP has been conceived and designed to make manifolds on site, guaranteeing the perpendicularity between drilling and welding. The working range of the main pipe goes from Ø2" to 24" and on this it is possible to weld branches from Ø½" to 5". The drilling system guarantees a hole centered at 90° for perfect alignment of the fitting on the entire circumference of the pipe.

### TECHNICAL CHARACTERISTICS:

*Overall dimensions with drill 20"x15"x11"*

*Weight of transport case: 15 lb*

*Weight of standard equipment and case: 49 lb*

*Weight of machine body with fixing system and handwheel: 17 lb*

### BASIC EQUIPMENT SUPPLIED WITH THE WELDING UNIT:

- Fixing column with handwheel
- System of marking of the tube from Ø2"÷ 24"
- Pipe fixing chain
- Spindle to fix the fitting
- Adapter for electric screwdriver drill
- Universal feeder
- Transport suitcase

### ADDITIONAL EQUIPMENT AND SPARES:

- Polywelder model 00NPCE125/110 with transport case (available separately)
- Electric screwdriver (not included)
- Adapter for screwdriver drill (spare part available 00R84854650)
- Driver a for hole cutters (spare part available 00R94650100)

**FREIGHT CONDITIONS:** All NIRON orders shipped domestically are shipped F.O.B. North American Distribution Location. All NIRON Italy orders shipped from Italy are shipped F.O.B. Busto Arsizio (VA) Italy. Once the material leaves our dock it becomes the property and responsibility of the consignee. If freight is lost, or damaged, all freight claims must be filed by the consignee. When shipping to a job site, freight will be third party billed. **CUSTOMERS WILL HAVE ONE WEEK FROM THE DATE OF RECEIPT OF AN ORDER TO REPORT LOST, MISSING OR DAMAGED MATERIALS FROM THE SHIPMENT.**

**FULL FREIGHT ALLOWANCE:** To meet the full freight allowance, NIRON orders must be for immediate complete shipment to one location within the contiguous United States or Canada. Each shipment for a project will be subject to the schedule below based on the amount of the follow-up order (i.e. the amount is not cumulative if follow-up orders are placed for the same project). Shipments to Alaska, Puerto Rico, Hawaii or for export are not freight allowed, except for the mainland portion of the freight. For shipments to Alaska, Hawaii, Puerto Rico or for export, the freight allowances shown below, for qualified items, are for shipment to East Coast, Gulf Coast or West Coast Ports only.

For orders totaling between \$0 and \$30,000 involving fittings-only and/or small equipment, the freight cost will be the actual amount billed. Orders greater than \$30,000 net, involving fittings-only and/or small equipment, will be freight allowed.

For orders totaling between \$0 and \$50,000 involving pipe, the freight cost will be the actual amount billed. Orders greater than \$50,000 net, involving pipe, will be freight allowed.

The above freight terms do not apply to air freight shipments or expedited shipments. Air freight shipments and expedited forms of delivery will be negotiated and agreed to in each circumstance. Customers may alternatively arrange for their own transportation, or may arrange for the freight to be billed to a third party account by specifying this on the purchase order. Next day air orders must be received by 2:00 p.m. EST to be accepted for next day service.

For pipe shipments involving less than standard full package (bag) quantities of any given size, a 10% surcharge shall apply, plus the cost for providing protective packaging and the full transportation cost. For any pipe shipments involving full bag quantities, but less than a full lift quantity, no surcharge shall apply, however Nupi will charge for any and all protective packaging that is required in order to maintain the integrity of the pipe during shipping and allow for shipment by standard over-the-road shipping carriers. For pipe orders that are less than full freight allowed, the full freight cost shall be charged.

The minimum accepted net order amount shall be \$100 in all circumstances. For orders placed that are less than \$100, the net value of the order shall be increased by an amount so that the total order will be billed at \$100 plus the applicable amount for shipping percentage based on \$100 net order value. The customer will have 24 hours after notice of order confirmation to increase the amount or type of parts being ordered to be greater than or equal to \$100 to avoid paying the surcharge.

**PAYMENT TERMS:** All invoices are due net 30 days from the date of the invoice, with all Past Due accounts subject to a service charge of 1.5% per month.

**RETURN POLICY:** All orders are non-cancellable. Pipe is non-returnable. Requests for return of fittings are subject to review and approval by the Nupi Sales Manager. If the return is approved, fittings may be returned up to a maximum 10% of the value of fittings sold on an order, subject to a 35% restocking charge if the fittings are returned in fully resalable condition. Freight cost for the return is not included and must be paid by the company requesting the return. The net value, if the return is approved, will be issued in the form of a credit against future orders.

**ORDER ACCEPTANCE:** No price list, literature, catalogue, website or other material describing our products is to be construed as an offer to sell same. Orders are subject to acceptance by us at our offices in Houston, TX. Your order, when shipped by us, shall be the complete contract between us, subject to, and incorporating therein, the terms and conditions, herein set forth, and any provisions or terms contained in the order submitted to us that are not consistent with our terms and conditions shall not be valid. Prices and discounts contained in any of our price lists or posted on our website are subject to change without notice.

#### LIMITED WARRANTY (FOR NON-INDUSTRIAL AND NON-CHEMICAL INSTALLATIONS):

Nupi Americas warrants that products sold by it which are included in its NIRON Piping System shall be of good materials and workmanship and free from functional defects for a period of thirty (30) years from the date of sale, excepting valves, gaskets and o-rings; products other than pipes and fittings shall be of good materials and workmanship and free from functional defects for a period of one (1) year from the date of sale; provided that such products are properly installed in accordance with the specifications and published instructions of Nupi Americas by qualified installers who have been trained and certified by Nupi Americas or its authorized representatives. These respective warranties shall become immediately null and void if the products to which they apply due to any

of the following: (i) are employed in applications not recommended by Nupi Americas; (ii) are installed by anyone other than an installer trained and certified by Nupi Americas or its authorized representatives; (iii) were installed in a manner which fails to comply with written installation instructions of Nupi Americas; (iv) were installed in a manner that does not comply with common installation or use practices and existing building and plumbing codes and legal requirements; (v) was not at all times used in a manner consistent with its intended use; (vi) was not at all times used in installations and environments acceptable to its material and design specifications; (vii) was modified, altered or repaired by anyone other than the Seller; (viii) was not properly subjected to and passed common testing methods (including pressure testing recommendations of Nupi Americas and the authority having local jurisdiction) immediately after the product's installation and before the product is put into service; (ix) Where installed in direct exposure to UV if the installed NIRON piping system is other than Cool-Pro or Nero. In the event of a system malfunction or leak caused by defective Nupi Americas' warranted materials (and not by incorrect installation, incorrect handling procedures or by jobsite or installation damage), a reasonable amount will be allowed for repair materials and repair labor as long as the amount is pre-approved by Nupi Americas. In order to qualify for a warranty remedy described in the previous sentence, you must contact Nupi Americas in advance and receive a written authorization for this remedy from an authorized Nupi Americas' representative. Repair materials, repair labor and freight expenses not authorized in writing in advance by Nupi Americas in this way will not be compensated. In the event of a leak occurring in a factory manifold, you may contact Nupi Americas for either a free replacement manifold or any parts that are reasonably needed to repair such a leak (freight prepaid). Note that Nupi Americas limits its warranty to its piping, valves and accessories, fittings, manifolds and field connections that are properly made in accordance with the written instructions of Nupi Americas by an installer who is trained and certified by Nupi Americas or its authorized representatives, subject to the other limitations described above. The copper portion of copper transition parts are not included in these warranties and are instead subject to a separate limited lifetime warranty from the original manufacturer that is available upon request.

Evidence of tampering, mishandling, misuse or abuse, neglect, accidental damage, freeze damage or unauthorized repairs that cause damage to Nupi Americas' warranted products will void any warranty coverage for those particular products.

Nupi Americas provides a complete plumbing system offering so that it is possible to complete an installation with Nupi Americas' products. However, it is possible that other manufacturers' piping and/or fittings may be installed in any given installation. Providing that the piping and/or fittings are manufactured to the same ASTM and CSA standards governing Niron's products, and have been certified by a recognized third-party testing agency, the NIRON product in the given installation will continue to be covered under this warranty. In the event of a system malfunction or leak that has other piping and/or fitting manufacturers' components installed within the failed system, Nupi Americas will be responsible only for proven defects in material or workmanship in the Nupi Americas products. Products manufactured by another company should be reported to that manufacturer for its warranty response.

These limited warranties are in lieu of all other warranties, express or implied, including, without limitation, those concerning merchantability or fitness for a particular purpose. These limited warranties are also in lieu of any other possible liabilities of Nupi Americas, whether alleged to have arisen by agreement or by operation of law, respecting the sale, installation, use or function of Nupi Americas' products, including, without limitation, claims of negligence, gross negligence, strict liability or any other tort.

**LIMITATION OF LIABILITY:** If a claim arises as the result of a product defect, Nupi Americas shall cover losses caused to third parties for property damages and bodily injury or incidental damages in those situations where Nupi America's Liability Insurance Policy provides coverage for such losses, up to the coverage amounts provided in such policy and subject to all of the terms, conditions and exclusions of such policy (Policy ITCANY05134 Issued by Chubb European Group SE).

No person is authorized by Nupi Americas to accept for it any other liability of any kind in connection with the sale or use of products sold and/or marketed by it.

All requests and notices under this Warranty shall be directed to: Nupi Americas, Attn: Customer Service 314 Commerce Parkway, Early Branch, SC 29916; Tel: 803-398-3579, Fax: 803-398-3639

**SHIPPING DATES – DELAYS – SHORTAGE CLAIMS:** Promises of shipping dates are estimates, and as such, cannot be guaranteed. Nupi Americas will not be liable for any delay in a delivery. Any claims for shipping errors, shortages or defects must be made to Nupi Americas within 24 hours of receipt of the goods. Buyer shall be required to make timely payment to seller of any amount which is undisputed, or not subject to such claims.

**TAXES:** Any sales or manufacturers' taxes are to be paid by the buyer, including those imposed under any future statutes.
