

ACO ShowerDrain

Plus ShowerChannel

ACO ShowerDrain

Linear shower drains offer a design statement in homes, spas, casinos and boutique hotels, as well as a more pragmatic use in hospitals, assisted living facilities or applications where access, corrosion-resistance or hygiene is a major concern.

Products are suitable for traditional shower design and also allow the elimination of physical barriers within the bathroom floor for a contemporary look while complying with universal design concepts.

ACO ShowerDrain Plus

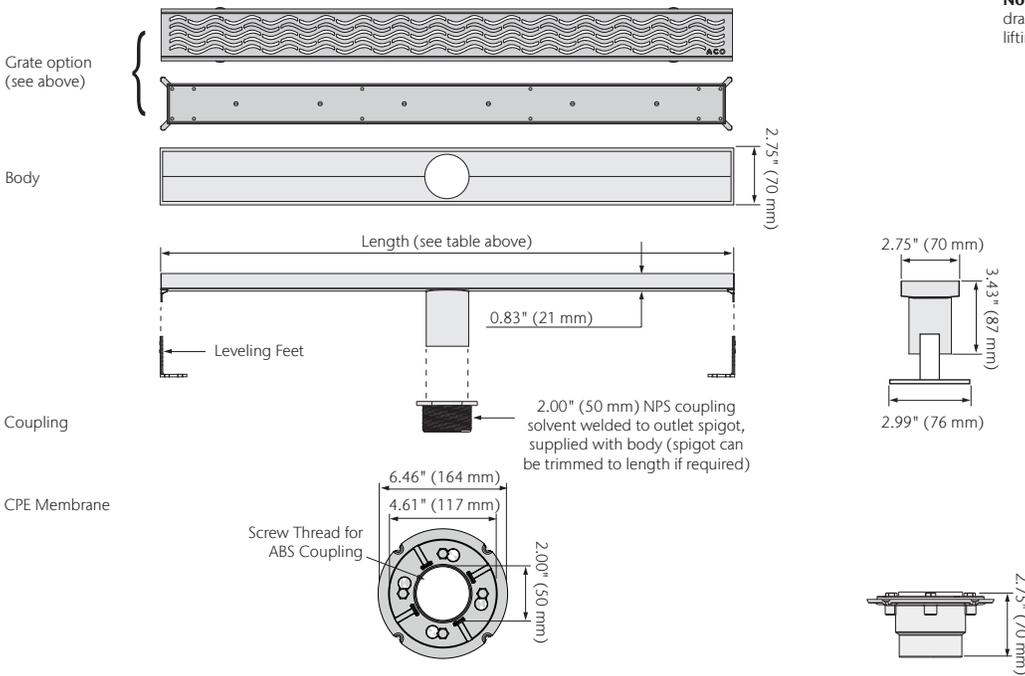

The ACO ShowerDrain Plus product range provides an economical way to mimic the high-end trend of designer linear shower drains. A similar quality stainless steel grate option coupled with a cost-effective plastic body provides an affordable solution. All products are sealed in a package for care of installation.
