

Transition Announcement: FLA-LED Fixture Series

We will be transitioning from our current FLA-LED Area/Flood Light Series to a new FLS-LED Series at the end of September 2020. The new FLS-LED Series has improved features including universal mounting and easy install, is cost-effective and DLC Premium listed as per the latest DLC 5 standards.

As a result of this upcoming change, we are offering special pricing for the current FLA models.

Please note this pricing is applicable **while stocks last**.
