With 25 years of experience crafting collections steeped in simple, yet innovative, modern design, Riobel® honors the principles of distinctive style with its newest addition, the Parabola™ Collection. Created to be the true jewel of the bathroom, the collection draws inspiration from a parabolic surface – the only surface that allows focusing of multiple elements into a single point. The result is an innovative yet simple aesthetic that highlights the collection's geometry through elegant curves, creating a unique profile and bathroom focal point that maximizes the reflection of light in the surrounding environment. Each configuration offers an effortlessly superior experience and look, seamlessly unified throughout the collection with one key feature; the parabola.
