

## Stainless Steel Vanity Sink

Stainless steel has long been used for its clean look and durability. Our sinks are made from 300 series stainless steel and are guaranteed not to rust.

The chromium and nickel content makes the steel "stainless" and is the highest quality steel used in sinks. The brushed finish of our sinks is preferred over our competitors for its ability to hide small scratches than can occur over time. Each stainless steel sink is backed by a limited lifetime warranty.
