

Installation Instructions / Notice de montage

**WARNING
ELECTRICAL SHOCK HAZARD**
**AVERTISSEMENT
RISQUE D'ÉLECTROCUSSION**

**READ and UNDERSTAND these instructions before
installing the luminaire.**

**LISEZ cette notice et assurez-vous de la
COMPRENDRE avant de monter le luminaire.**

EN
Disconnect the Electrical supply power at the services panel (fuse or circuit breaker box). Failure to do so could result in serious injury. Consult a qualified electrician to ensure correct branch circuit conductor. The product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

FR
Couper l'alimentation du courant électrique au panneau de service (boîte de fusible ou disjoncteur) sans quoi il pourrait en résulter des blessures sérieuses. Consulter un électricien qualifié pour vous assurer que les conducteurs de la dérivation sont adéquats. Ce produit doit être installé selon le code d'installation pertinent, par une personne qui connaît bien le produit et son fonctionnement ainsi que les risques inhérents.

INSTALLATION A

Wall mounting on the junction box

1. Unscrew the four screws and remove the back plate (Fig. 1A).
2. Using the appropriate tools, knockout the knockouts of the back plate.
3. Remove the 1/2" back the central luminaire plug by unscrewing it (Fig. 2A).
4. Peel the yellow sticker and paste the black gasket on the external round area of the back plate of luminaire (Fig. 3A).
5. Pass the supply wires through the central hole of the back plate and install it on the recessed junction box (not provided) on the wall by using screws (not provided) (Fig. 4A).
6. Make the electrical connections between the power leads (black, white and yellow green) and luminaire leads by using the wire nuts (Fig. 5A).
7. Select the desired color temperature by using the switch inside the housing (if apply).
8. Close the luminaire by screwing the four screws (Fig. 6A).
9. Apply power.

INSTALLATION B

Wall mounting with side power cable

1. Unscrew the four screws (Fig. 1B).
2. Peel the yellow sticker and paste the black gasket on the external round area of the back plate of luminaire (Fig. 2B).
3. Remove the 1/2" side plug by unscrewing it (Fig. 4B).
4. Install the back plate on the wall by screwing it (screws not included) (Fig. 3B).
5. Pass the power cable through the side hole of the back plate and make the electrical connections between the power leads (black, white and yellow green) and luminaire leads by using the wire nuts (Fig. 5B).
- NOTE:** Make sure that the external power cable is well sealed into the luminaire opening.
6. Select the desired color temperature by using the switch inside the housing (if apply).
7. Close the luminaire by screwing the four screws (Fig. 6B).
8. Apply power.

TROUBLE SHOOTING CHECKLIST: If the light does not work, check your power source and electrical connections.
