Hydrogen Sulfide Reduction AIO Filter

Does Your Water Stink?

Hydrogen sulfide (H₂S) is a nuisance. It adds an objectionable sulfur-like taste and "rotten egg" odor to drinking water. Left untreated, it can also lead to corrosion in drainage pipes and concrete sewers.

Features:

- ➔ Combines aeration with catalytic carbon technology to effectively reduce sulfur from water.
- ➔ No more bad taste or odor.
- ➔ No Chemicals to buy, mix or add
- ➔ No weekly water tests to perform
- ➔ Simple, Fully Automatic regeneration with Air
