

SLEEK, SIMPLE, SUSTAINABLE

# Aquor Water Systems

Our mission is to design and manufacture the world’s most **innovative, efficient, and user-friendly** water valves.

Using high-tech materials, quality manufacturing methods, and a user-centric design approach, we’re making products that are easy to use, and built to last.

#### OUR HISTORY

# 20+ years of marine-proven reliability

Originally designed in 1999 for boats and marine use, Aquor's valve design is backed with years of tried-and-true engineering and testing. Based in Port Townsend, WA, Aquor provides revolutionary outdoor water access through patented quick-connect technology. We are dedicated to crafting durable, innovative solutions for homeowners, builders, and more.

# House Hydrants

Provide **sub-zero freeze protection**, fast and reliable connections, marine-grade corrosion resistance, simple security, built-in backflow prevention, and easy installation. **Beautiful, durable, and low-profile**, a better alternative to traditional brass spigots.

# House Hydrant V1+

**BEST FOR FAUCET REPLACEMENT** Stainless steel hydrant with vacuum breaker hose connector. ASSE & CSA certified.

*Available in Slate Gray Polymer, Brushed Stainless, and Matte Black Stainless Kits. Stem Length 2"-12". Includes Debris Cover, 1/2" NPT Straight Inlet, and Wide Grip VB Hose Connector.*

HHP-SERIES

## Slate Gray Polymer

Our standard House Hydrant Kit in Slate Gray Polymer finish.

\$89.99

HHP-SERIES-SS

## Brushed Stainless

Our standard House Hydrant Kit in Brushed Stainless finish.

\$119.99

HHP-SERIES-TI

## Matte Black Stainless

Our standard House Hydrant Kit in Matte Black Stainless finish.

\$159.99

# House Hydrant V2+

**BEST FOR NEW CONSTRUCTION** Stainless steel hydrant with vacuum breaker built into faceplate. ASSE certified.

*Available in Slate Gray Polymer, Brushed Stainless, and Matte Black Stainless Kits. Stem Length 2"-12". Includes Debris Cover, 1/2" NPT Straight Inlet, and Straight Hose Connector.*

VBHP-SERIES

## Slate Gray Polymer

Our standard House Hydrant Kit in Slate Gray Polymer finish.

\$149.99

VBHP-SERIES-SS

## Brushed Stainless

Our standard House Hydrant Kit in Brushed Stainless finish.

\$189.99

VBHP-SERIES-TI

## Matte Black Stainless

Our standard House Hydrant Kit in Matte Black Stainless finish.

\$219.99

THE DIFFERENCE BETWEEN V1+ & V2+

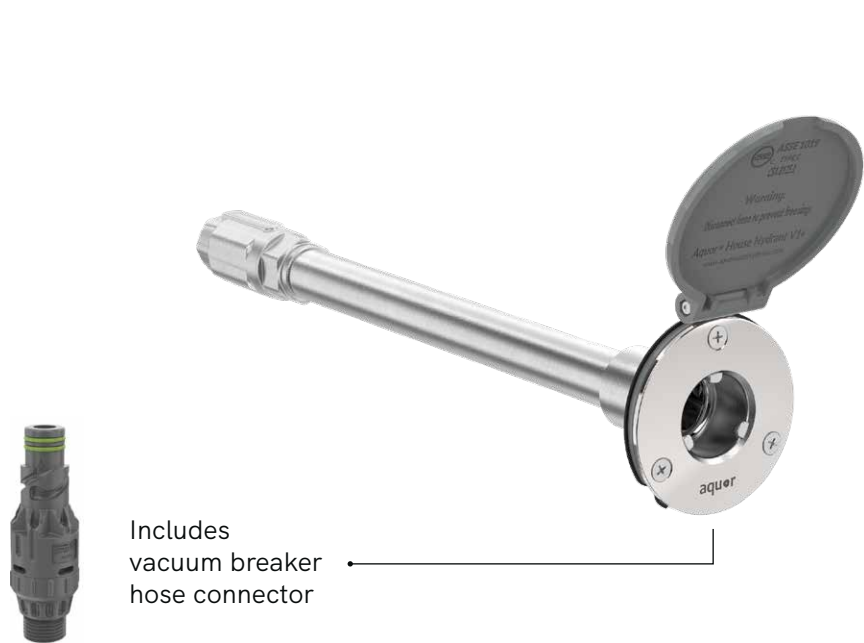

# All about backflow protection.

Backflow can occur if there is a sudden drop in water pressure, resulting in suction on the system and a reverse flow of liquid.

Most codes and municipalities now require backflow preventers.

A **vacuum breaker** is a type of backflow preventer.

Vacuum breakers keep water flowing in one direction, and interrupt any reverse suction to keep your water supply clean.

## Backflow Protected Hose Connection

House Hydrant V1+, **best for retrofits and remodels.**  
Perfectly fine for new construction.

- ⊖ Aquor vacuum breaker hose connector required to meet code.
- ✓ Round entry hole. Smaller footprint, easier installation.

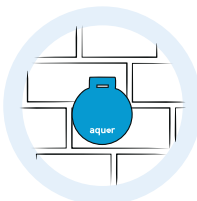

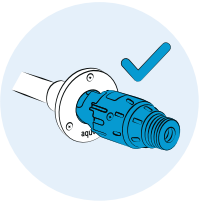

## Backflow Protected Hydrant

House Hydrant V2+, **best for new construction.** Can be used for retrofits.

- ✓ Built-in atmospheric vacuum breaker. Meets code with any hose connector.
- ✓ Oval entry hole. Recommended for new construction. Simple retrofit.

# The only outdoor faucet upgrade.

**INSTANT & LEAK-FREE**  
Simple push & twist quick-connect.  
Easy on hands and joints.

**BURST-PROOF PROTECTION**  
Insulates 7x better than brass.  
Freeze-proof to -30°F.

**LIMITED LIFETIME WARRANTY**  
Enjoy decades of maintenance-free use, guaranteed.

**PROFESSIONAL STANDARD**  
Proud winners at the International Builders Show and more.

**MODERN DESIGN**  
Flush-mount & customizable to match your exterior.

**SUSTAINABLE MATERIALS**  
Manufactured with zero-lead and eco-friendly polymers.

# Other Hydrants

Aquor's commercial-grade outlets and hydrants provide **versatility for any location**. Perfect for your home, RV, boat, and more. All Aquor valves share the same innovative twist-lock connection, allowing effortless connections anywhere.

DW-4

Universal Hydrant

**BEST DO-IT-ALL** Ideal for a wide range of applications. Mount horizontally or vertically, anywhere you need water access. Includes Straight Hose Connector.

\$74.99

Universal Hydrant with Straight Hose Connector,  
Shower Application

DW-5

RV City Water Inlet

**BEST FOR RV AND OVERLAND VEHICLES** City-water fill port for RVs and campers. Designed for pressurized water connections. Includes Removable Faucet Hose Connector.

\$79.99

RV City Water Inlet  
Trailer Application

DW-3

Marine Deckwash

**BEST FOR BOATS** Our industry-leading Marine Deckwash. Heavy-duty swivel cover with enamel “WASHDOWN” marking. Includes Straight Hose Connector.

\$89.99

Marine Deckwash  
Yacht Application

UGH-SERIES

Ground Hydrant

**BEST FOR YARD** Frost-free ground hydrant with drain port. Install flush or recessed for a discrete yard hydrant. Includes Straight Hose Connector

\$129.99

Ground Hydrant with Straight Hose Connector,  
Yard Application

# Create true indoor-outdoor living spaces.

## THIS OLD HOUSE™ 2021 IDEA HOUSE

Builder: Hartman Homes  
Architects: D/O Architects  
Photographer: Chad Holder  
Location: St. Paul, Minnesota  
Installed: **House Hydrant V2+** in Brushed Stainless

# Hose Connectors

Attach to your hose once, and never deal with threads again. Aquor connectors are made with **military-grade Delrin® acetal resin** and **leak-proof Viton® O-rings** for maximum durability and wear resistance. Tested to withstand 150,000+ cycles, and 200+ lbs of lateral force. So it **won't break if you tug on it**.

CN-S1

**Straight Hose Connector**

Our standard hose connector with internal check-valve.

\$14.99

CN-VB2

**Wide Grip VB Hose Connector**

**INTERNAL VACUUM BREAKER** Wider grip makes it easier to connect. ASSE & CSA certified.

\$17.99

CN-AN

**Angled Hose Connector**

Adds leverage for easier connections. Internal check-valve.

\$15.99

CN-VB1

**Vacuum Breaker Hose Connector**

**INTERNAL VACUUM BREAKER** Angled for extra leverage. Ball valve for flow control. ASSE & CSA certified.

\$24.99

CN-F

**Removable Faucet Hose Connector**

Built-in ball valve for flow control. Use with or without a garden hose. Aerator for smooth flow.

\$22.99

CN-VB3

**Comfort Grip VB Hose Connector**

**INTERNAL VACUUM BREAKER** Wider body and angled grip for maximum comfort. ASSE & CSA certified.

\$29.99

Removable Faucet Hose Connector, Straight Hose Connector, and Comfort Grip VB Hose Connector, Slate Gray

**HOW TO CHOOSE A CONNECTOR**

For V1+ Hydrants, Ground Hydrants, and Washdowns, choose a **vacuum-breaker hose connector** for backflow protection.

For V2+ Hydrants, Ground Hydrants, and Washdowns, choose a **non-vacuum-breaker hose connector**.

SIMPLE SECURITY

# Protect your home and resources.

No loose keys, bulky padlocks, or expensive commercial boxes.

Simply store the Aquor connector with your garden hose, so you can control access to your water. The outlet is difficult to tamper with, and the stainless steel internals **prevent vandalism.**

# Debris Covers

Aquor Debris Covers are heavy-duty covers built to **protect your hydrant** from dirt and debris when not in use. Available in stainless steel or weatherproof thermoplastic, in multiple colors and finishes.

House Hydrant V2+, Brushed Stainless

MC-V1

Debris Cover V1+

Heavy-duty to seal out dirt and debris. For Aquor House Hydrants V1 and V1+. Can be adapted for RV City Water Inlet and Ground Hydrant.

				
SLATE GRAY POLYMER \$15.99	AQUOR BLUE POLYMER \$15.99	BRUSHED STAINLESS \$34.99	MATTE BLACK STAINLESS \$44.99	MATTE WHITE STAINLESS \$44.99

MC-V2P

Debris Cover V2+

Heavy-duty to seal out dirt and debris. For Aquor House Hydrants V2+ only.

				
SLATE GRAY POLYMER \$17.99	AQUOR BLUE POLYMER \$17.99	BRUSHED STAINLESS \$39.99	MATTE BLACK STAINLESS \$49.99	MATTE WHITE STAINLESS \$49.99

C-DW2

RV Plug Cover

Heavy-duty EPDM plug cover seals out dirt and debris. For RV City Water Inlet.

\$15.99

RECOGNIZED BY LEADING BUILDERS

# Award-winning design.

Proud 2x winner of the **Best Outdoor Living Product Award**, presented at the NAHB International Builder's Show.

FA-4

Double Female Hose Adapter

Stainless steel double-female hose adapter. Use this to reverse garden hose threads, for RV inlet ports and other applications.

\$19.99

FA-6

G1/2" Shower Hose Adapter

Stainless steel G1/2" hose adapter transforms any Aquor hydrant into a handheld shower system.

\$19.99

HSA-7

Hose Adapter Quick Connect Kit

Connect garden hoses together to extend or hot-swap accessories such as sprinkles and nozzles.

\$34.99

FA-2

Faucet Adapter

Converts any traditional hose bibb into an Aquor quick-connect outlet. Includes Straight Hose Connector.

\$29.99

Adapters

Our adapters are meant to expand your Aquor system without having to install anything new. **Simply screw on the adapter and you're ready to go.**

Faucet Adapter, Aquor Blue

# Ultralight Garden Hoses

Made from food-grade USA-made polyurethane, our garden hoses are **75% lighter** than traditional rubber, yet more **durable and kink-resistant**. Flexible in all temperatures, from hot to freezing cold.

Ultralight Garden Hose, 25 FT

GH-6  
**6 FT HOSE**  
\$29.99

GH-25  
**25 FT HOSE**  
\$49.99

GH-50  
**50 FT HOSE**  
\$89.99

GH-100  
**100 FT HOSE**  
\$139.99

# Mounting Solutions

Aquor offers several mounting solutions for different types of installations to make installs easier, faster, and better weatherproofed.

MB-TK-1

Teak Mounting Block - V1+

**For new construction or retrofit installations.** Genuine teak, sustainably-sourced. Can be oiled, painted, or left unfinished. Weathers beautifully over time.

\$24.99

MB-TK-2

Teak Mounting Block - V2+

**For new construction or retrofit installations.** Genuine teak, sustainably-sourced. Can be oiled, painted, or left unfinished. Weathers beautifully over time.

\$24.99

MB-PLATE-1

Stainless Steel Mounting Plate - V1+

**Ideal for both new construction and retrofit installations.** Designed for brick and stucco, but can be used on many siding types. Perfect for brittle masonry or covering holes.

POLISHED STAINLESS  
\$24.99

COATED MATTE BLACK  
\$39.99

MB-PLATE-2

Stainless Steel Mounting Plate - V2+

**Ideal for both new construction and retrofit installations.** Designed for brick and stucco, but can be used on many siding types. Perfect for brittle masonry or covering holes.

POLISHED STAINLESS  
\$24.99

COATED MATTE BLACK  
\$39.99

MB-SSBOX-1

Stainless Steel Mounting Box - V1+

**Intended for new construction.** Provides a flat, weatherproof solution for a variety of siding types. Available in 1.5", 3", 5.5" depths.

POLISHED STAINLESS  
\$44.99

COATED MATTE BLACK  
\$64.99

MB-SSBOX-2

Stainless Steel Mounting Box - V2+

**Intended for new construction.** Provides a flat, weatherproof solution for a variety of siding types. Available in 1.5", 3", 5.5" depths.

POLISHED STAINLESS  
\$44.99

COATED MATTE BLACK  
\$64.99

SL1-SERIES

Mounting Sleeve - V1+

**Intended for new construction.** Simplifies the installation in stucco situations. Ensures water-proofed install and easy future serviceability. Hydrant and inlet sold separately. Available in 2" and 4".

\$19.99

HOW TO CHOOSE A MOUNTING SOLUTION

**Teak blocks** are best for retrofits or new construction with lap siding, but can be adapted to other types.

**Stainless mounting plates** are best for masonry or brick siding. They extend the mounting holes, allowing you to cover a larger or irregular entry hole.

**Stainless mounting boxes** are best for new construction. Ideal for stucco, stone, brick, lap siding, and more.

**Mounting sleeves** are best for stucco installations and provide easy serviceability.

# Inlets

Compatible with all hydrants except ground hydrants. Can be positioned in any direction and unscrewed up to 360° while maintaining a watertight O-ring seal. All inlets are 316L stainless steel and include valve reset spring.

INL-ST-12-NPT

1/2" NPT Straight Inlet

The default hydrant inlet comes on all hydrants. Use with any plumbing - NPT is the most common thread type.

\$14.99

INL-ST-12-PEX-CR

1/2" PEX Crimp Inlet

This inlet replaces the default hydrant inlet with a 1/2" PEX Crimp connection. Quickly and reliably connect your Aquor hydrant to 1/2" PEX tubing for an easier installation.

\$14.99

INL-EL-12-NPT

1/2" NPT 90° Elbow Inlet

This inlet replaces the default hydrant 1/2" NPT inlet. The elbow shortens the overall length of the hydrant by 1/2". Use with any plumbing - NPT is the most common thread type.

\$17.99

INL-EL-12-PEX-CR

1/2" PEX Crimp 90° Elbow Inlet

This inlet replaces the default hydrant inlet with a 1/2" PEX Crimp connection. Quickly and reliably connect your Aquor hydrant to 1/2" PEX tubing for an easier installation.

\$17.99

INL-ST-34-NPT

3/4" NPT Straight Inlet

This inlet replaces the default hydrant 1/2" NPT inlet. Adapts to larger 3/4" plumbing. Use with any plumbing - NPT is the most common thread type.

\$14.99

INL-ST-12-PEX-EX

1/2" PEX Expansion Inlet

This inlet replaces the default hydrant inlet with a 1/2" PEX F1960 connection. Quickly and reliably connect your Aquor hydrant to 1/2" PEX tubing with a cold-expansion connection.

\$14.99

INL-ST-34-PEX-EX

3/4" PEX Expansion Inlet

This inlet replaces the default hydrant inlet with a 1/2" PEX F1960 connection. Quickly and reliably connect your Aquor hydrant to 1/2" PEX tubing with a cold-expansion connection.

\$14.99

INL-EL-12-PEX-EX

1/2" PEX Expansion 90° Elbow Inlet

This inlet replaces the default hydrant inlet with a 1/2" PEX F1960 connection. Quickly and reliably connect your Aquor hydrant to 1/2" PEX tubing with a cold-expansion connection.

\$17.99

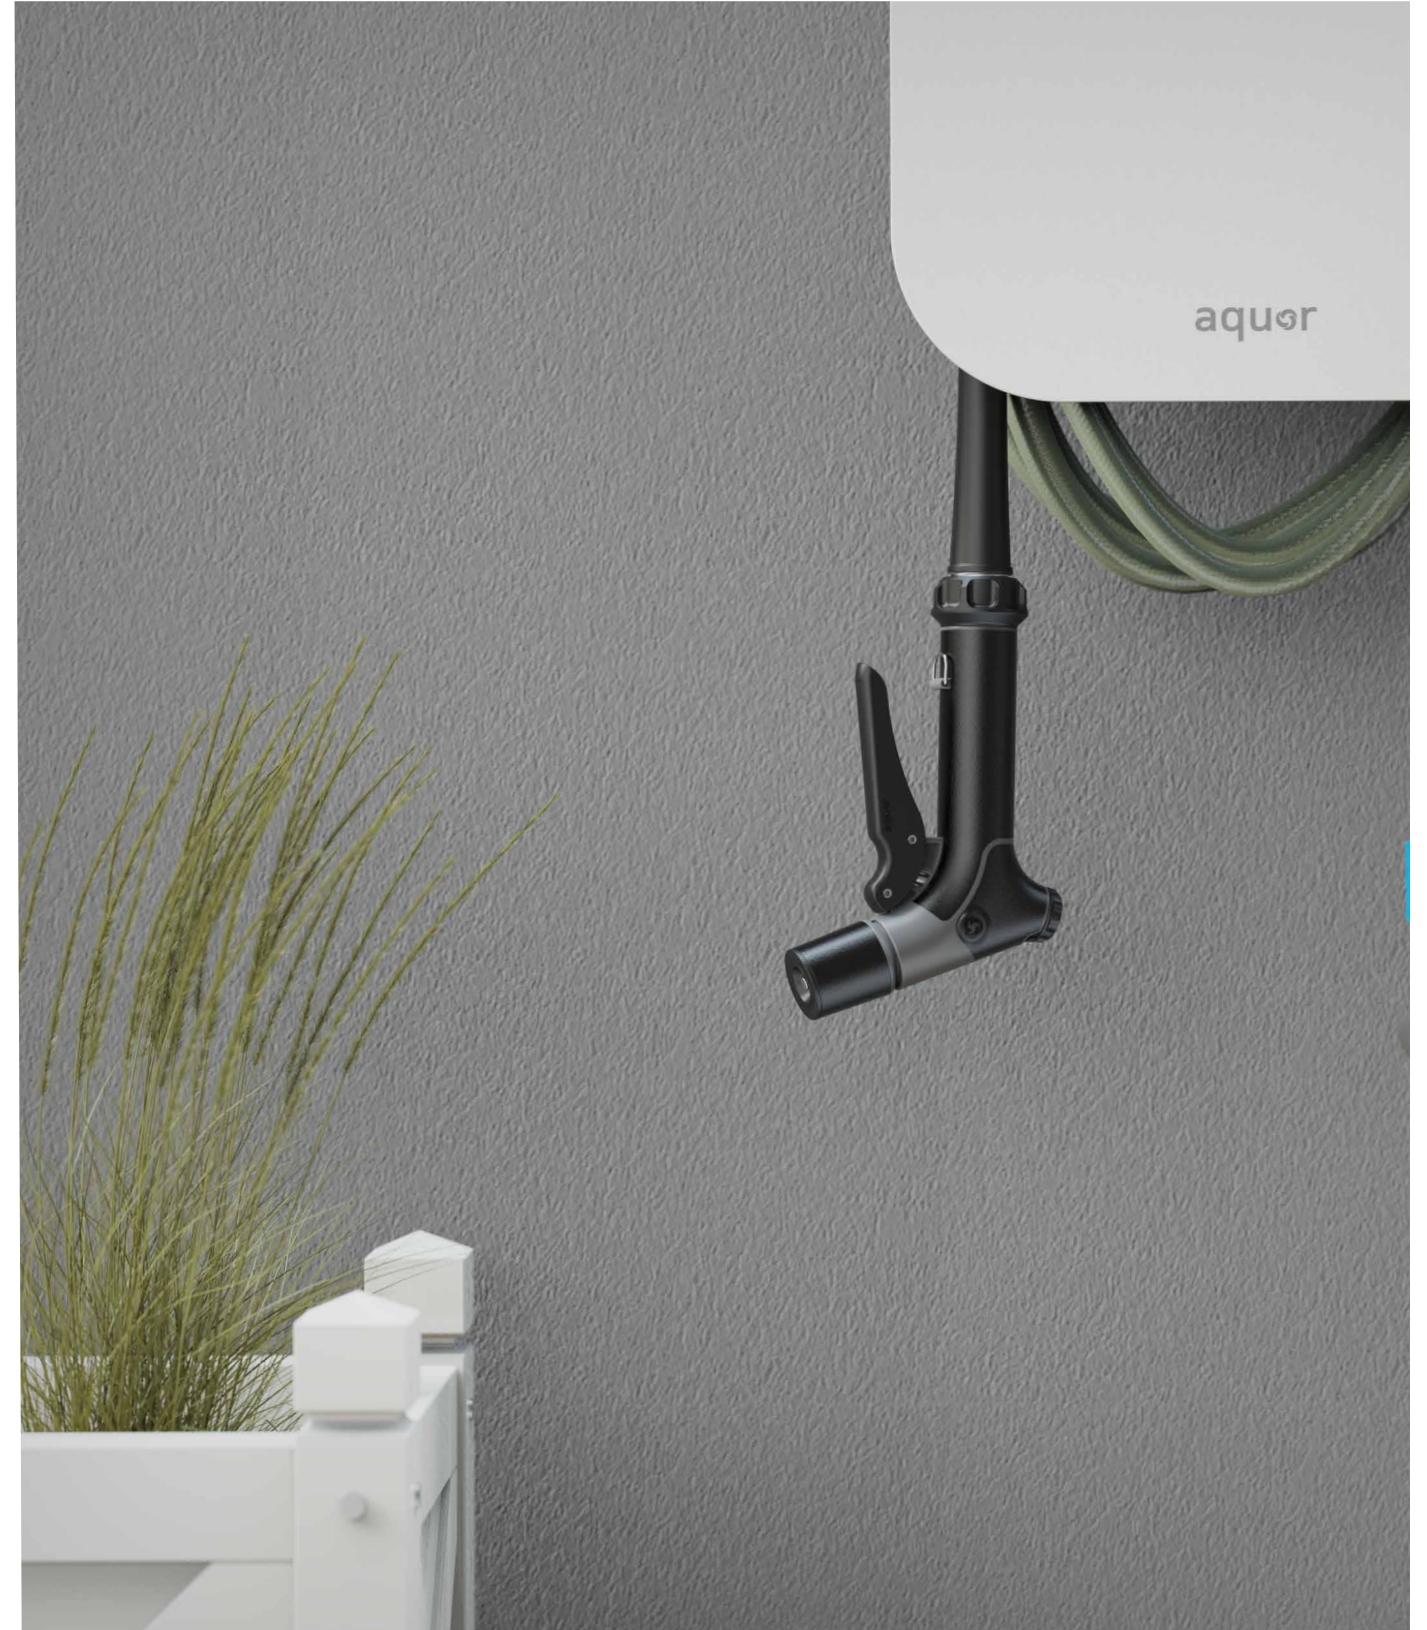

SNEAK PEAK

# Aquor Hot+Cold

SNEAK PEAK

# Aquor Spray Nozzle

Finally, an outdoor faucet  
you'll actually enjoy using.
